Christian has a tough decision to make; does he go for the mysterious girl that teases and eludes him, or for the bubbly blonde who's near perfect in his eyes? Looking past their unique personalities and their incredible sex appeal that is so difficult for him to resist, his decision bears heavy burden because the girls in question are really a Valkyrie and a Harpy. The two races have been warring with each other for many millennia and Christian's final choice will decide one of their fates for good. As if a

love triangle with devastating consequences wasn't enough, Christian also has to make a good impression his freshman year of college if he wants to have any chance of playing football next fall. While behaving like a good boy and dealing with two fantastical girls, he also has to come to terms with who his father is and, more importantly, what his father is. Mayhem, an immortal that previously held the title as The God of War, offers to help Christian on his journey to answer all of his questions. Mayhem's help proves to be

detrimental rather than beneficial and forces Christian to take matters into his own hands. It's time for him to grow up and make up his mind; time is short.

2021 A DESOLATE, STORM-SWEPT BEACH IN WINTER... TWO MEN, ONE YOUNG, ONE OLDER, PLAYING A GAME OF CAT AND MOUSE. IT'S NO GAME. CHRIS NIELSON IS FIGHTING FOR HIS LIFE. Rock guitarist Chris Nielson is between gigs. Way between gigs. His musical and personal lives have turned sour, and he's looking for a way to regroup, to stimulate his creative juices, to decide what's next in his floundering twenty-something existence. When his father's rich friend Ted Harper offers

him a house-sitting job at his palatial Maryland beach house, it seems like the perfect answer. Ted needs somebody to live there over the winter, to keep away intruders. Hooligans caused damage last year. With Chris and his dog, Charlie, on the premises, the place should be safe. Ted's only demands: stay the whole winter, respect his property, and don't leave the house untended. The house is eerie, foreboding. It's cold and lonely, especially at night. But the setting, an isolated sandbar separated from the mainland by a one-lane bridge off an unmarked road, is invigorating.

There's also an intriguing neighbor. Caroline is from California and has fled to Maryland to escape an abusive boyfriend. Caroline invites Chris for dinner. They share a love for music, maybe something more. But is Caroline who she seems to be? And what about Ted Harper? Where does he get his money? What's his story? When Chris finds things in the house that don't make sense, he begins to suspect that Ted is playing a horrible game with him. Maybe Chris will wake up and the bad dream will go away. Maybe this is just the worst rehab he could imagine. Or maybe something sinister is about to

happen, an insane man's demented plot in which Chris, himself, is the target. When it was originally published more than thirty years ago, John Fowles's *The Magus* captivated readers with its enigmatic and magical story of a young man caught in a web of political and sexual betrayal, filled with hallucinations, riddles, and mental games. Inspired by that novel and those of contemporary masters of suspense, John Maxwell's brilliant debut is a richly woven and wholly original take on the traditional psychological thriller.

**Air and Sea Power in World War I**  
Aug 22 2021 The Great War tore the fabric of Europe

apart, killing over 35 million men and challenging the notion of heroism in war, *Air and Sea Power in World War I* focuses on the experience of World War I from the perspective of British pilots and sailors themselves, to demonstrate that the army-centric view of war studies has been too limited. The Royal Flying Corps, created in 1912, adapted quickly to the needs of modern warfare, driven by the enthusiasm of its men. In contrast, the lack of modernisation in the Royal Navy, despite the unveiling of HMS Dreadnought in 1906, undermined Britain's dominance of the seas. By

considering five key aspects of the war experience, this book analyses how motivation was created and sustained. What training did men receive and how effectively did this prepare them for roles that were predominantly non-combative? How was motivation affected by their individual relationship with weaponry development, and how different was defensive service on the Home Front, when in close proximity to ordinary civilian life? Finally, *Air and Sea Power in World War I* looks at the changing reputation of the services during and after the conflict, and the extent to

which these notions were created by the memoirs of pilots and sailors.

Featuring new primary source material, including the journals of service men themselves, this book will be essential reading for students and scholars of World War I and of Naval, Aviation and Military History.

**Britain Goes to War** Sep 22 2021 The First World War had a profound impact on British society and on British relations with continental Europe, the Dominions, the United States and the emerging Soviet Union. The pre-war world was transformed, and the world that we recognize today

began to take shape. That is why, 100 years after the outbreak, the time is right for this collection of thought-provoking chapters that reassesses why Britain went to war and the preparations made by the armed forces, the government and the nation at large for the unprecedented conflict that ensued. A group of distinguished historians looks back, with the clarity of a modern perspective, at the issues that were critical to Britain's war effort as the nation embarked on the most intense and damaging struggle in its history. In a series of penetrating chapters they

explore the reasons for Britain going to war, the official preparations, the public reaction, the readiness of the armed forces, internment, the impact of the opening campaign, the experience of the soldiers, recruitment, training, weaponry, the political implications, and the care of the wounded.

Flying Fury Aug 02 2022 The day-to-day insights of a brilliantly daring World War I ace that only ends with his death at the age of 23 . . . James McCudden was an outstanding British fighter ace of World War I, whose daring exploits earned him

a tremendous reputation and, ultimately, an untimely end. Here, in this unique and gripping firsthand account, he brings to life some of aviation history's most dramatic episodes in a memoir completed at the age of twenty-three, just days before his tragic death. During his time in France with the Royal Flying Corps from 1914 to 1918, McCudden rose from mechanic to pilot and flight commander. Following his first kill in September 1916, McCudden shot down a total of fifty-seven enemy planes, including a remarkable three in a single minute in January 1918. A dashing patrol

leader, he combined courage, loyalty, and judgment, studying the habits and psychology of enemy pilots and stalking them with patience and tenacity. Written with modesty and frankness, yet acutely perceptive, Flying Fury is both a valuable insight into the world of early aviation and a powerful account of courage and survival above the mud and trenches of Flanders. Fighter ace James McCudden died in July 1918, after engine failure caused his plane to crash just four months before the end of World War I. **Fury's Hour** Apr 17 2021 No-holds-barred political strategist Warren Kinsella's colourful, no-holds-barred look at punk rock, and how it influenced him and millions of other kids to strive for nothing less than changing the world. Playing bass for Calgary punk-rock quartet the Hot Nasties might seem a strange way for one of Canada's top political strategists to have spent his formative years, but in *Fury's Hour* — Warren Kinsella's exploration of punk's history and heroes, its factions, failures and triumphs — he shares his unique view into a subculture that has long encouraged

people to think big about the world. From early meetings with icons Joey Ramone and Joe Strummer, Kinsella has gone on to interview a who's who of punk: Sex Pistols Johnny Rotten and Glen Matlock, Fugazi's Ian MacKaye, Billy Idol, DOA's Joey "Shithead" Keithly, Bad Religion's Brett Gurewitz, Blink 182, Good Charlotte and many more. Since he was a teenager, Kinsella has challenged his heroes to put into words the true value of the music. How, after decades of co-optation by the record industry, neo-Nazis and misdirected radicals, are new generations continuing what he calls punk's "search

for the real"? In *Fury's Hour*, with the iconoclasm and passion that have marked his career in politics, Warren Kinsella searches for the soul of a sound that invigorated the way he and millions of others have grown up — finding a way to turn anger into energy.

leash in public places has become a major political issue in cities and suburbs across the United States. In the last two decades, "leash-law disputes" have burst upon the political scene and have been debated with an intensity usually reserved for such hot-button issues as abortion and gun rights. This book investigates what has changed in American community life, social mores, and the relationship between humans and dogs to provoke such passionate responses. At its heart, the book details and evaluates the handling of three leash-law disputes, all of which were

exceedingly divisive and emotionally intense. Two of the cases took place in San Francisco, a city with a reputation as one of the most dog-friendly in the United States until 2001-2002, when officials curtailed off-leash walking. The other case study occurred in 1998 in Avonùa wealthy suburb of Hartford, Connecticutùwhen town officials unilaterally imposed a leash law at a popular off-leash park. This book is not only a revealing study of Americans' conflicted attitudes toward animals and the difficult balance between individual rights and the public good in our communities. It is

also a useful source of information for both dog owners and local government officials who are faced with leash-law disagreements

The Ages of Two-faced Janus Apr 05 2020 This volume deals with the tracts - Latin and vernacular - published in the Netherlands on the

comets of 1577 and 1618. Central to the book is the question of how these cometary appearances influenced the Aristotelian world view. This is the first lengthy examination of the decline of Aristotelian cosmology in the Netherlands. Its demonstration of the connection between cosmological and political views renders the book useful to historians of general Dutch history, as well as historians of science.
