A Piece of the World Feb 25 2022 INSTANT NEW YORK TIMES BESTSELLER "A must-read for anyone who loves history and art." --Kristin Hannah From the #1 New York Times bestselling author of the smash bestseller Orphan Train, a stunning and atmospheric novel of friendship, passion, and art, inspired by Andrew Wyeth's mysterious and iconic painting Christina's World. "Later he told me that he'd been afraid to show me the painting. He thought I wouldn't like the way he portrayed me: dragging myself across the field, fingers

clutching dirt, my legs twisted behind. The arid moonscape of wheatgrass and timothy. That dilapidated house in the distance, looming up like a secret that won't stay hidden." To Christina Olson, the entire world was her family's remote farm in the small coastal town of Cushing, Maine. Born in the home her family had lived in for generations, and increasingly incapacitated by illness, Christina seemed destined for a small life. Instead, for more than twenty years, she was host and inspiration for the artist Andrew Wyeth, and became the subject of one of the best known American

paintings of the twentieth century. As she did in her beloved smash bestseller *Orphan Train*, Christina Baker Kline interweaves fact and fiction in a powerful novel that illuminates a little-known part of America's history. Bringing into focus the flesh-and-blood woman behind the portrait, she vividly imagines the life of a woman with a complicated relationship to her family and her past, and a special bond with one of our greatest modern artists. Told in evocative and lucid prose, *A Piece of the World* is a story about the burdens and blessings of family history, and how artist and muse can come together to forge a new and timeless legacy.

National Geographic Visual History of the World Jul 21 2021 Looks at the important events and figures in world history, from 4000 B.C. to the present day.

[The Far Side of the World \(Vol. Book 10\) \(Aubrey/Maturin Novels\)](#) May 31 2022 The tenth installment in the beloved, epic Aubrey/Maturin series and inspiration for the major motion

picture starring Russell Crowe. The War of 1812 continues, and Captain Jack Aubrey sets course for Cape Horn on a mission after his own heart: intercepting a powerful American frigate outward bound to wreak havoc with the British whaling trade. Meanwhile, Stephen Maturin has a mission of his own in the world of secret intelligence and comes face to face with the harsh realities for women of the age. Disaster in various guises awaits them in the Great South Sea and in the far reaches of the Pacific—typhoons, castaways, shipwrecks, an ill-fated affair, murder, and criminal insanity—as well as a bold rescue by a crew of seafaring female warriors.

Bears of the World Oct 24 2021 Bears have fascinated people since ancient times. The relationship between bears and humans dates back thousands of years, during which time we have also competed with bears for shelter and food. In modern times, bears have come under pressure through encroachment on their

habitats, climate change, and illegal trade in their body parts, including the Asian bear bile market. The IUCN lists six bears as vulnerable or endangered, and even the least concern species, such as the brown bear, are at risk of extirpation in certain countries. The poaching and international trade of these most threatened populations are prohibited, but still ongoing. Covering all bears species worldwide, this beautifully illustrated volume brings together the contributions of 200 international bear experts on the ecology, conservation status, and management of the Ursidae family. It reveals the fascinating long history of interactions between humans and bears and the threats affecting these charismatic species.

Frogs and Toads of the World Oct 12 2020

Describes the origins, classification, size and shape, colors, enemies, food, reproduction, life-cycle, and habitat of frogs and toads from around the world.

[When We Cease to Understand the World](#) Feb 02

2020 One of The New York Times Book Review's 10 Best Books of 2021 Shortlisted for the 2021 International Booker Prize and the 2021 National Book Award for Translated Literature A fictional examination of the lives of real-life scientists and thinkers whose discoveries resulted in moral consequences beyond their imagining. *When We Cease to Understand the World* is a book about the complicated links between scientific and mathematical discovery, madness, and destruction. Fritz Haber, Alexander Grothendieck, Werner Heisenberg, Erwin Schrödinger—these are some of luminaries into whose troubled lives Benjamín Labatut thrusts the reader, showing us how they grappled with the most profound questions of existence. They have strokes of unparalleled genius, alienate friends and lovers, descend into isolation and insanity. Some of their discoveries reshape human life for the better; others pave the way to chaos and unimaginable suffering. The lines are never clear. At a breakneck pace

and with a wealth of disturbing detail, Labatut uses the imaginative resources of fiction to tell the stories of the scientists and mathematicians who expanded our notions of the possible.

The Way of the World Jan 27 2022 From Pulitzer Prize-winning journalist and bestselling author Ron Suskind comes a startling look at how America and the West lost their way, and at the struggles of their respective governments to reclaim the moral authority on which their survival depends. From the White House to Downing Street, and from the fault-line countries of South Asia to the sands of Guantanamo, Suskind offers an astonishing story that connects world leaders to the forces waging today's shadow wars and to the next generation of global citizens. Tracking down truth and hope, Suskind delivers historic disclosures with this emotionally stirring and strikingly original portrait of the post 9-11 world.

National Geographic Little Kids First Big Book of Where Dec 02 2019 Preschoolers are full of

"Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. This charming reference book zeroes in on location, location, location. More than 200 colourful photos are paired with age-appropriate text featuring answers to questions like "Where does the sky end?", "Where is the highest mountain?", and "Where was ice cream invented?" Containing several kid-friendly maps designed to expand the learning experience, this book inspires kids to be curious, ask questions, and explore the world around them.

Mad at the World: A Life of John Steinbeck Aug 29 2019 Winner of the 2021 Los Angeles Times Book Prize for Biography A Publishers Weekly Best Book of 2020 in Nonfiction A resonant biography of America's most celebrated novelist of the Great Depression. The first full-length biography of the Nobel laureate to appear in a quarter century, *Mad at the World* illuminates what has made the work of John

Steinbeck an enduring part of the literary canon: his capacity for empathy. Pulitzer Prize finalist William Souder explores Steinbeck's long apprenticeship as a writer struggling through the depths of the Great Depression, and his rise to greatness with masterpieces such as *The Red Pony*, *Of Mice and Men*, and *The Grapes of Wrath*. Angered by the plight of the Dust Bowl migrants who were starving even as they toiled to harvest California's limitless bounty, fascinated by the guileless decency of the downtrodden denizens of Cannery Row, and appalled by the country's refusal to recognize the humanity common to all of its citizens, Steinbeck took a stand against social injustice—paradoxically given his inherent misanthropy—setting him apart from the writers of the so-called "lost generation." A man by turns quick-tempered, compassionate, and ultimately brilliant, Steinbeck could be a difficult person to like. Obsessed with privacy, he was mistrustful of people. Next to writing, his favorite things

were drinking and womanizing and getting married, which he did three times. And while he claimed indifference about success, his mid-career books and movie deals made him a lot of money—which passed through his hands as quickly as it came in. And yet Steinbeck also took aim at the corrosiveness of power, the perils of income inequality, and the urgency of ecological collapse, all of which drive public debate to this day. Steinbeck remains our great social realist novelist, the writer who gave the dispossessed and the disenfranchised a voice in American life and letters. Eloquent, nuanced, and deeply researched, *Mad at the World* captures the full measure of the man and his work.

Winter of the World Apr 05 2020 "This book is truly epic. . . . The reader will probably wish there was a thousand more pages." —The Huffington Post Picking up where *Fall of Giants*, the first novel in the extraordinary Century Trilogy, left off, *Winter of the World* follows its

five interrelated families—American, German, Russian, English, and Welsh—through a time of enormous social, political, and economic turmoil, beginning with the rise of the Third Reich, through the great dramas of World War II, and into the beginning of the long Cold War. Carla von Ulrich, born of German and English parents, finds her life engulfed by the Nazi tide until daring to commit a deed of great courage and heartbreak . . . American brothers Woody and Chuck Dewar, each with a secret, take separate paths to momentous events, one in Washington, the other in the bloody jungles of the Pacific . . . English student Lloyd Williams discovers in the crucible of the Spanish Civil War that he must fight Communism just as hard as Fascism . . . Daisy Peshkov, a driven social climber, cares only for popularity and the fast set until war transforms her life, while her cousin Volodya carves out a position in Soviet intelligence that will affect not only this war but also the war to come.

The World Is Flat [Further Updated and Expanded; Release 3.0] Apr 17 2021 This new edition of Friedman's landmark book explains the flattening of the world better than ever- and takes a new measure of the effects of this change on each of us.

News of the World Apr 29 2022 Soon to be a Major Motion Picture National Book Award Finalist—Fiction In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of *Enemy Women* that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita

Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act "civilized." Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forming a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember—strangers who regard her as an unwanted burden. A respectable man, Captain

Kidd is faced with a terrible choice: abandon the girl to her fate or become—in the eyes of the law—a kidnapper himself.

The World Book Encyclopedia Nov 05 2022
An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Weight of the World Mar 05 2020 Zack lost his job, his apartment, and his hope, which is why he ends up on the roof of a high rise, certain that one final step will solve his problems. But a mysterious stranger named Rob happens to be on the roof that night too. He talks Zack down, convincing him there's still hope left in the world. Zack thinks maybe he's right, which is why he's shocked when he turns on the news the next morning to find out Rob jumped himself. Disturbed and confused, he searches for answers, starting with Rob's brother Tommy Rayburn. It's been Tommy's job to take care of his brother since they were kids, taking the blows from their father so Rob wouldn't have to.

Tommy thought he could protect him, even if it meant carrying the weight of the world on his shoulders. Considering Rob threw himself off a building, he obviously couldn't. Then he meets Zack, a friend of Rob's who's suspiciously evasive about how they knew each other. But they're both grieving and determined to find out why Rob jumped. Answers don't come easily, and soon they're soothing each other with sweat-slicked, passionate encounters. Hot as things get in the bedroom, it doesn't take them long to realize there's more between them than mind-blowing sex and their pain. But the heaviness is still there, threatening to pull them under, and if they can't open up with each other to lighten the load, the weight just might be enough to crush them both.

[A Short History of the World](#) Jul 01 2022

Chronologically discusses the events of history beginning with the evolution of man and ending with the restructuring of Western Europe in 1993.

A World in Disarray Oct 31 2019 "A valuable primer on foreign policy: a primer that concerned citizens of all political persuasions—not to mention the president and his advisers—could benefit from reading." —The New York Times An examination of a world increasingly defined by disorder and a United States unable to shape the world in its image, from the president of the Council on Foreign Relations Things fall apart; the center cannot hold. The rules, policies, and institutions that have guided the world since World War II have largely run their course. Respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace. Meanwhile, great power rivalry is returning. Weak states pose problems just as confounding as strong ones. The United States remains the world's strongest country, but American foreign policy has at times made matters worse, both by what the U.S. has done

and by what it has failed to do. The Middle East is in chaos, Asia is threatened by China's rise and a reckless North Korea, and Europe, for decades the world's most stable region, is now anything but. As Richard Haass explains, the election of Donald Trump and the unexpected vote for "Brexit" signals that many in modern democracies reject important aspects of globalization, including borders open to trade and immigrants. In *A World in Disarray*, Haass argues for an updated global operating system—call it world order 2.0—that reflects the reality that power is widely distributed and that borders count for less. One critical element of this adjustment will be adopting a new approach to sovereignty, one that embraces its obligations and responsibilities as well as its rights and protections. Haass also details how the U.S. should act towards China and Russia, as well as in Asia, Europe, and the Middle East. He suggests, too, what the country should do to address its dysfunctional politics, mounting debt,

and the lack of agreement on the nature of its relationship with the world. *A World in Disarray* is a wise examination, one rich in history, of the current world, along with how we got here and what needs doing. Haass shows that the world cannot have stability or prosperity without the United States, but that the United States cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding.

Words of the World Aug 02 2022 Demonstrates that the Oxford English Dictionary is an international product in both its content and its making.

A Map of the World Sep 03 2022

Pen/Hemingway Award-winning novelist Jane Hamilton follows up her first success, *The Book Of Ruth*, with this spectacularly haunting drama about a rural American family and a disastrous event that forever changes their lives. The Goodwins, Howard, Alice, and their little girls, Emma and Claire, live on a dairy farm in

Wisconsin. Although suspiciously regarded by their neighbors as "that hippie couple" because of their well-educated, urban background, Howard and Alice believe they have found a source of emotional strength in the farm, he tending the barn while Alice works as a nurse in the local elementary school. But their peaceful life is shattered one day when a neighbor's two-year-old daughter drowns in the Goodwins' pond while under Alice's care. Tormented by the accident, Alice descends even further into darkness when she is accused of sexually abusing a student at the elementary school. Soon, Alice is arrested, incarcerated, and as good as convicted in the eyes of a suspicious community. As a child, Alice designed her own map of the world to find her bearings. Now, as an adult, she must find her way again, through a maze of lies, doubt and ill will. A vivid human drama of guilt and betrayal, *A Map of the World* chronicles the intricate geographies of the human heart and all its mysterious, uncharted

terrain. The result is a piercing drama about family bonds and a disappearing rural American life.

Guinness Book of World Records, 1979 Nov 12 2020

All the World Jun 19 2021 This simple, profound, Caldecott Honor story is now available as a Classic Board Book. All the world is here. It is there. It is everywhere. All the world is right where you are. Now. Following a circle of family and friends through the course of a day from morning until night, this book affirms the importance of all things great and small in our world, from the tiniest shell on the beach, to the warmth of family connections, to the widest sunset sky. Now available as a Classic Board Book, this Caldecott Honor picture book written by Liz Garton Scanlon and illustrated by Marla Frazee is perfect for the youngest of readers.

The Bookshop of the World Jul 29 2019 The untold story of how the Dutch conquered the European book market and became the world's

greatest bibliophiles--"an instant classic on Dutch book history" (BMGN - Low Countries Historical Review) "[An] excellent contribution to book history."--Robert Darnton, New York Review of Books The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer, whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic. Yet there is another, largely overlooked marvel in the Dutch world of the seventeenth century: books. In this fascinating account, Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and bought and owned more books per capita than any other part of Europe. Key innovations in marketing, book auctions, and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy, and created a population uniquely well-informed and politically engaged. This book tells for the first time the remarkable story of the Dutch conquest

of the European book world and shows the true extent to which these pious, prosperous, quarrelsome, and generous people were shaped by what they read.

The Vast Wonder of the World Sep 30 2019 Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! "A must-purchase picture book biography of a figure sure to inspire awe and admiration among readers."—School Library Journal (starred review) Extraordinary illustrations and lyrical text present pioneering African American scientist Ernest Everett Just. Ernest Everett Just was not like other scientists of his time. He saw the whole, where others saw only parts. He noticed details others failed to see. He persisted in his research despite the discrimination and limitations imposed on him as an African American. His keen observations of sea creatures revealed new insights about egg cells and the origins of life. Through stunning

illustrations and lyrical prose, this picture book presents the life and accomplishments of this long overlooked scientific pioneer.

Sophie's World Jan 03 2020 One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

The Heart of the World Jul 09 2020 The myth of Shangri-la originates in Tibetan Buddhist beliefs in beyul, or hidden lands, sacred sanctuaries that reveal themselves to devout pilgrims and in times of crisis. The more remote and inaccessible the beyul, the vaster its reputed qualities. Ancient Tibetan prophecies declare that the greatest of all hidden lands lies at the heart of the forbidding Tsangpo Gorge, deep in the Himalayas and veiled by a colossal waterfall.

Nineteenth-century accounts of this fabled waterfall inspired a series of ill-fated European expeditions that ended prematurely in 1925 when the intrepid British plant collector Frank Kingdon-Ward penetrated all but a five-mile section of the Tsangpo's innermost gorge and declared that the falls were no more than a "religious myth" and a "romance of geography." The heart of the Tsangpo Gorge remained a blank spot on the map of world exploration until world-class climber and Buddhist scholar Ian Baker delved into the legends. Whatever cryptic Tibetan scrolls or past explorers had said about the Tsangpo's innermost gorge, Baker determined, could be verified only by exploring the uncharted five-mile gap. After several years of encountering sheer cliffs, maelstroms of impassable white water, and dense leech-infested jungles, on the last of a series of extraordinary expeditions, Baker and his National Geographic-sponsored team reached the depths of the Tsangpo Gorge. They made

news worldwide by finding there a 108-foot-high waterfall, the legendary grail of Western explorers and Tibetan seekers alike. The Heart of the World is one of the most captivating stories of exploration and discovery in recent memory—an extraordinary journey to one of the wildest and most inaccessible places on earth and a pilgrimage to the heart of the Tibetan Buddhist faith.

Reflections on the History of Art Mar 29 2022 Essays discuss Greek and Chinese art, Da Vinci, Michelangelo, Dutch genre painting, Rubens, Rembrandt, art collecting, museums, and Freud's aesthetics

Little Kids First Big Book of the World Nov 24 2021 This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song

in Spanish. More than 100 colorful photos are paired with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time.

Lord of the World Aug 22 2021 The novel's protagonist is a British Roman Catholic priest, Father Percy Franklin, who looks identical to the mysterious U.S. Senator Julian Felsenburgh of Vermont. The senator appears as a lone and dramatic figure promising world peace in return for blind obedience. No one quite knows who he is or where he comes from, but his voice mesmerizes. Under his leadership, war is abolished. Felsenburgh becomes the President of Europe, then of the world, by popular acclaim. Everyone is fascinated with him, yet still no one knows much about him. People are both riveted and frightened by the way he demands attention. Most follow without question. Having been a close observer of President Felsenburgh's rise, Father Franklin is called to Rome, a Hong Kong-

style enclave ruled by Pope John XXVI and raised to the College of Cardinals. Meanwhile, defections among bishops and priests increase. At Cardinal Franklin's instigation, the pope abolishes the Eastern Catholic Churches and forms a new religious order, the Order of Christ Crucified. All its members, including the Pope, vow to die in the name of the faith.

The World at Night Sep 10 2020 See the full beauty of our night sky revealed as never before in over 200 photographs from around the world. Bringing together the images of over 40 photographers across 25 countries, be astounded by the lights of the night sky in some of the darkest places on earth; discover the beauty of galaxies, planets, and stars; view great celestial events; and see some of the world's most important landmarks against the backdrop of an incredible nightscape. Babak Tafreshi, founder of the international organization The World at Night, has curated the images in this collection—many of them previously unseen—to

reveal the true splendor of the sky at night. A specialist guide to night-sky photography will help you capture your own gorgeous images of the heavens. Commentary on the science, astronomy, and photography accompany stunning images organized by theme: Symbols of all nations and religions embraced by one sky of endless beauties UNESCO World Heritage Sites at night The Universe revealed through constellations, sky motions, atmospheric phenomenon, Aurora, and other wonders Images highlighting the beauty of dark skies away from light-polluted urban areas Celestial events, from great comets to spectacular eclipses Astro-tourism destinations, like ancient astronomical monuments and modern observatories *A Play for the End of the World* Jan 15 2021 A dazzling novel—set in early 1970's New York and rural India—the story of a turbulent, unlikely romance, a harrowing account of the lasting horrors of World War II, and a searing examination of one man's search for forgiveness

and acceptance. “Looks deeply at the echoes and overlaps among art, resistance, love, and history ... an impressive debut.” —Meg Wolitzer, best-selling author of *The Female Persuasion* New York City, 1972. Jaryk Smith, a survivor of the Warsaw Ghetto, and Lucy Gardner, a southerner, newly arrived in the city, are in the first bloom of love when they receive word that Jaryk's oldest friend has died under mysterious circumstances in a rural village in eastern India. Travelling there alone to collect his friend's ashes, Jaryk soon finds himself enmeshed in the chaos of local politics and efforts to stage a play in protest against the government—the same play that he performed as a child in Warsaw as an act of resistance against the Nazis. Torn between the survivor's guilt he has carried for decades and his feelings for Lucy (who, unbeknownst to him, is pregnant with his child), Jaryk must decide how to honor both the past and the present, and how to accept a happiness he is not sure he deserves. An unforgettable love

story, a provocative exploration of the role of art in times of political upheaval, and a deeply moving reminder of the power of the past to shape the present, *A Play for the End of the World* is a remarkable debut from an exciting new voice in fiction.

The World May 07 2020 The New York Times Bestseller “A superb introduction to the world and global issues. Richard Haass has written something that is brief, readable, and yet comprehensive—marked throughout by his trademark intelligence and common sense.” —Fareed Zakaria An invaluable primer from Richard Haass, president of the Council on Foreign Relations, that will help anyone, expert and non-expert alike, navigate a time in which many of our biggest challenges come from the world beyond our borders. We live in a global era, in which what happens thousands of miles away often affects our lives. Although the United States is bordered by two oceans, those oceans are not moats. And the so-called Vegas

rule—what happens there stays there—does not apply. Globalization can be both good and bad, but it is not something that individuals or countries can opt out of. The choice we face is how to respond. The World focuses on history, what makes each region of the world tick, the many challenges globalization presents, and the most influential countries, events, and ideas, to provide readers with the background they need to make sense of this complicated and interconnected world.

Writing the Book of the World Sep 22 2021 Theodore Sider presents a broad new vision of metaphysics centred on the idea of structure. To describe the world well we must use concepts that 'carve at the joints', so that conceptual structure matches reality's structure. This approach illuminates a wide range of topics, such as time, modality, ontology, and the status of metaphysics itself.

[The Mushroom at the End of the World](#) Dec 14 2020 What a rare mushroom can teach us about

sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies

and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

The Light of the World Feb 13 2021 A deeply resonant memoir for anyone who has loved and lost, from acclaimed poet and Pulitzer Prize finalist Elizabeth Alexander. In *The Light of the World*, Elizabeth Alexander finds herself at an existential crossroads after the sudden death of her husband. Channeling her poetic sensibilities into a rich, lucid prose, Alexander tells a love story that is, itself, a story of loss. As she reflects on the beauty of her married life, the trauma resulting from her husband's death, and the solace found in caring for her two teenage sons, Alexander universalizes a very personal quest

for meaning and acceptance in the wake of loss. *The Light of the World* is at once an endlessly compelling memoir and a deeply felt meditation on the blessings of love, family, art, and community. It is also a lyrical celebration of a life well-lived and a paean to the priceless gift of human companionship. For those who have loved and lost, or for anyone who cares what matters most, *The Light of the World* is required reading.

The World Book Oct 04 2022 “[R]ich in tantalizing tidbits for young globe-trotters.”—Kirkus Reviews Where in the world would you like to visit? Take an epic tour of every country in the world with *The World Book*. Welcome to the world we call home! In all of Space there’s nothing quite like it. On the following pages, you’ll be going on the ultimate globe-trotting tour. Secrets of the World's Worst Matchmaker
Aug 10 2020 Colton is Juno's best friend. He'd

usually be the one she goes to for advice on what do you do when you fall in love with your best Imagine you're a matchmaker and you realize too late you're in love with your childhood best friend. You only have yourself to blame—you're the one who matched him and now he's engaged to be married. When you find yourself in this position there's a few secrets you're going to need to keep... Secret #1 - Smile when he tells you the happy news, even if your heart cracks in half. Secret #2 - Don't compare yourself to his beautiful French fiancée. You're just as beautiful. Secret #3 - Don't tag along to the tux fitting with him alone. Just no. Secret #4 - Don't help him learn to dance to his wedding song. Secret #5 - Erase all memories of the two of you through the years when lines blurred for even the briefest of moments. And the one you never saw coming... Secret #6 - Definitely, don't stand and object—someone else might just do it for you.

All the Seas of the World May 19 2021

Returning triumphantly to the brilliantly evoked near-Renaissance world of *A Brightness Long Ago* and *Children of Earth and Sky*, international bestselling author Guy Gavriel Kay deploys his signature 'quarter turn to the fantastic' to tell a story of vengeance, power, and love. On a dark night along a lonely stretch of coast a small ship sends two people ashore. Their purpose is assassination. They have been hired by two of the most dangerous men alive to alter the balance of power in the world. If they succeed, the consequences will affect the destinies of empires, and lives both great and small. One of those arriving at that beach is a woman abducted by corsairs as a child and sold into years of servitude. Having escaped, she is trying to chart her own course—and is bent upon revenge. Another is a seafaring merchant who still remembers being exiled as a child with his family from their home, for their faith, a moment that never leaves him. In what follows, through a story both intimate and epic, unforgettable

characters are immersed in the fierce and deadly struggles that define their time. All the *Seas of the World* is a page-turning drama that also offers moving reflections on memory, fate, and the random events that can shape our lives—in the past, and today.

The Name of the World Jun 27 2019 The acclaimed author of *Jesus' Son* and *Already Dead* returns with a beautiful, haunting, and darkly comic novel. *The Name of the World* is a mesmerizing portrait of a professor at a Midwestern university who has been patient in his grief after an accident takes the lives of his wife and child and has permitted that grief to enlarge him. Michael Reed is living a posthumous life. In spite of outward appearances -- he holds a respectable university teaching position; he is an articulate and attractive addition to local social life -- he's a dead man walking. Nothing can touch Reed, nothing can move him, although he observes with a mordant clarity the lives whirling

vigorously around him. Of his recent bereavement, nearly four years earlier, he observes, "I'm speaking as I'd speak of a change in the earth's climate, or the recent war." Facing the unwelcome end of his temporary stint at the university, Reed finds himself forced "to act like somebody who cares what happens to him. " Tentatively he begins to let himself make contact with a host of characters in this small academic town, souls who seem to have in common a tentativeness of their own. In this atmosphere characterized, as he says, "by cynicism, occasional brilliance, and small, polite terror," he manages, against all his expectations, to find people to light his way through his private labyrinth. Elegant and incisively observed, *The Name of the World* is Johnson at his best: poignant yet unsentimental, replete with the visionary imaginative detail for which his work is known. Here is a tour de force by one of the most astonishing writers at work today.

100 Snowmen Dec 26 2021 A growing number of

snowmen engage in whimsical, playful antics while inviting young children to practice their counting skills up to one hundred.

The Sound Book: The Science of the Sonic Wonders of the World Mar 17 2021

"A lucid and passionate case for a more mindful way of listening. . . . Anyone who has ever clapped, hollered or yodeled at an echo will delight in [Cox's] zestful curiosity."—New York Times
Trevor Cox is on a hunt for the sonic wonders of the world. A renowned expert who engineers classrooms and concert halls, Cox has made a career of eradicating bizarre and unwanted sounds. But after an epiphany in the London sewers, Cox now revels in exotic noises—creaking glaciers, whispering galleries, stalactite organs, musical roads, humming dunes, seals that sound like alien angels, and a Mayan pyramid that chirps like a bird. With forays into archaeology, neuroscience, biology, and design, Cox explains how sound is made and altered by the environment, how our body reacts

to peculiar noises, and how these mysterious wonders illuminate sound's surprising dynamics in everyday settings—from your bedroom to the

opera house. The Sound Book encourages us to become better listeners in a world dominated by the visual and to open our ears to the glorious cacophony all around us.
