Achieving sustainable production of poultry meat Volume 1 Aug 02 2022 To meet growing demand, the FAO has estimated that world poultry production needs to grow by 2-3% per year to 2030. Much of the increase in output already achieved has been as a result of improvements in commercial breeds combined with rearing in more intensive production systems. However, more intensive systems and complex supply chains have increased the risk of rapid transmission of animal diseases and zoonoses. Consumer expectations of sensory and nutritional quality have never been higher. At the same time consumers are more concerned about the environmental impact of poultry production as well as animal welfare. Drawing on an international range of expertise, this book reviews research on safety, quality and sustainability issues in poultry production. Part 1 discusses risks from pathogens, detection and safety management on farms and in slaughterhouse operations. Part 2 looks at ways of enhancing the flavour, colour, texture and nutritional quality of poultry meat. Finally, the book reviews the environmental impact of poultry production. Achieving sustainable production of poultry meat Volume 1: Safety, quality and sustainability will be a standard reference for poultry and food scientists in universities, government and other research centres and companies involved in poultry production. It is accompanied by two further volumes which review poultry breeding, nutrition, health and welfare.

*Storytelling the Bible at the Creation Museum, Ark Encounter, and Museum of the Bible* May 31 2022 Paul Thomas chronicles a multi-level reception study of the Bible at both the Creation Museum and the Ark Encounter in Kentucky, USA. Thomas explores the commercial presentation of biblical narratives and the reception of those narratives by the patrons of each attraction, focusing upon three topics; what do young Creationists believe, how they interpret their beliefs from the Bible, and what is the user experience at the museums? The volume begins by explaining how Answers in Genesis (AiG) use Bible passages to support young-Earth creationist arguments, allowing for the chance to consider the Bible via physical means. Thomas then examines how the Creation Museum and the Ark Encounter visitors receive the Bible (as presented by AiG) and how this presentation informs visitors' understanding of the text, exploring concepts such as the most prominent displays of the two attractions, the larger context of museums and theme parks and the case studies of the Methuselah display and The Noah Interview. He concludes with the summary of the user experience generated by the attractions, analyzing the degree to which patrons accept, negotiate, or resist the interpretation of the Bible offered by AiG.

Visible Cities, Global Comics Jul 21 2021 More and more people are noticing links between urban geography and the spaces within the layout of panels on the comics page. Benjamin Fraser explores the representation of the city in a range of comics from across the globe. Comics address the city as an idea, a historical fact, a social construction, a material-built environment, a shared space forged from the collective

imagination, or as a social arena navigated according to personal desire. Accordingly, Fraser brings insights from urban theory to bear on specific comics. The works selected comprise a variety of international, alternative, and independent small-press comics artists, from engravings and early comics to single-panel work, graphic novels, manga, and trading cards, by artists such as Will Eisner, Tsutomu Nihei, Hariton Pushwagner, Julie Doucet, Frans Masereel, and Chris Ware. In the first monograph on this subject, Fraser touches on many themes of modern urban life: activism, alienation, consumerism, flânerie, gentrification, the mystery story, science fiction, sexual orientation, and working-class labor. He leads readers to images of such cities as Barcelona, Buenos Aires, London, Lyon, Madrid, Montevideo, Montreal, New York, Oslo, Paris, São Paulo, and Tokyo. Through close readings, each chapter introduces readers to specific comics artists and works and investigates a range of topics related to the medium's spatial form, stylistic variation, and cultural prominence. Mainly, Fraser mixes interest in urbanism and architecture with the creative strategies that comics artists employ to bring their urban images to life.

*Passionate Bureaucrat, The: Lessons For The 21st Century From 4,500 Years Of Public Service Reform* Aug 10 2020 Effective and impartial public administration is the foundation of state legitimacy. This was understood 4,500 years ago when Urukagina, the ruler of a small country in Mesopotamia, proclaimed the first known reform of public service. The quality of public administration will be even more important in the 21st century. Successful states will be those that recognise public service as a key determinant of national competitive advantage. That realisation will generate a radical change in the image of the civil servant – from dull, uninspired public official to passionate advocate of the common good. This transformation will be the product of the complex challenges arising from the interweaving of globalisation with the '4th Industrial Revolution.' These and related developments are forcing governments around the world to search for public service that can respond to the unprecedented range of opportunities and threats emerging from a rapidly evolving international context. In an increasingly frenetic world ruled by 'Wicked Ostriches' and 'Black Elephants', governments require a civil service capable of achieving five outcomes: i) unlocking the creativity and collaborative spirit needed to solve complex problems; ii) overcoming the fallacy that the private sector is inherently more innovative and efficient than the public service; iii) developing societies that are perceived by their citizens as fair; iv) fostering the trust of citizens in their governments; and v) bolstering the legitimacy of the state. The author, who is Director of the United Nations Development Programme's Global Centre for Public Service Excellence in Singapore, suggests that these interconnected aims will result in a new phenomenon: the public recognition by political leaders and citizens that future prosperity, political stability, environmental sustainability and social cohesion are dependent on committed and creative civil servants passionate about promoting the long-term national interest. 'I shall pass through this world but once. Any good therefore that I can do or any kindness that I can show to any human being, let me do it now. Let me not defer or neglect it, for I shall not pass this way again.' Mahatma Gandhi

God's Answer to the Growing Crisis Dec 26 2021 The dramatic shifts seen over the last few years—from economic to political to moral to beyond—have set the stage for a crisis that will affect every sphere of society. But this crisis isn't just looming in the United States; all of humanity is at a crossroads like never before. Mike Bickle, director of the International House of Prayer of Kansas City, offers God's definitive answer to this approaching global crisis. He provides a fresh biblical perspective on: The agenda to secularize and de-Christianize America What the upsurge of secular humanism looks like The rise of ISIS and Islamic extremists The looming financial crisis Readers will overcome fear and confusion in the last days and learn to pray effectively for this nation and the world.

The Nurse's Reality Shift: Using History to Transform the Future Sep 10 2020 Despite dramatic scientific and technological advances since the advent of professional nursing in the 19th century, a close analysis shows that modern nurses face many of the same challenges as earlier nurses, including: inconsistent educational and licensing standards, incomplete or inconsistent facility-based training, including technology, excessive patient loads, staffing shortages, long shifts and overtime and colleague bullying. These and a host of other issues continue to strain front-line nurses and threaten retention rates. While analyzing the past and using modern survey techniques to give voice to current issues, *The Nurse's Reality Shift* sheds light on why nurses are where they are and, more importantly, how nurses can approach the future in a different way. This book asks the hard questions the nursing profession must answer to move past its recurring challenges and offers practical solutions and a road map for moving forward.

Greece in Crisis Sep 22 2021 Since 2010 Greece has been experiencing the longest period of austerity and economic downturn in its recent history. Economic changes may be happening more rapidly and be more visible than the cultural effects of the crisis which are likely to take longer to become visible, however in recent times, both at home and abroad, the Greek arts scene has been discussed mainly in terms of the crisis. While there is no shortage of accounts of Greece's economic crisis by financial and political analysts, the cultural impact of austerity has yet to be properly addressed. This book analyses hitherto uncharted cultural aspects of the Greek economic crisis by exploring the connections between austerity and culture. Covering literary, artistic and visual representations of the crisis, it includes a range of chapters focusing on different aspects of the cultural politics of austerity such as the uses of history and archaeology, the brain drain and the Greek diaspora, Greek cinema, museums, music festivals, street art and literature as well as manifestations of how the crisis has led Greeks to rethink or question cultural discourses and conceptions of identity.

Intellectual Humility Jan 15 2021 Why care about intellectual humility? What is an intellectual virtue? How do we know who is intellectually humble? The nature of intellectual virtues is a topic of ancient interest. But contemporary philosophy has experienced unparalleled energy and concern for one particular virtue over the past 30 years: intellectual humility. *Intellectual Humility: An Introduction to the Philosophy and Science* draws on leading research to provide an engaging and up-to-date guide to understanding what it is and why it's important. By using ten big questions to introduce the concept, this introduction presents a vibrant account of the ideas behind intellectual humility. Covering themes from philosophy, psychology, education, social science, and divinity, it addresses issues such as: What human cognition tells us about intellectual virtues The extent to which traits and dispositions are stable from birth or learned habits How emotions affect our ability to be intellectually humble The best way to handle disagreement The impact intellectual humility has on religion or theological commitments Written for students taking the University of Edinburgh's online course, this textbook is for anyone interested in finding out more about intellectual humility, how it can be developed and where it can be applied.

**Politics: Another Perspective** Oct 24 2021 Over the past 8 years there have been significant shifts in the American political landscape. The election of Senator Barack Obama as Americas 44th and first African American president signaled a giant leap forward in the American social, cultural, and political landscape. It has taken America 219 years to reach this point. Based upon Senator Obamas campaign promises many people looked forward to a more transparent and inclusive government. Others saw this election as a signal of a new post-racial America, but America has always been a country in conflict. As many basked in the comfort of Obamas historic election, others feared its backlash. History tells us that white supremacy dies hard in America and its proponents would not take Americas victory lying down. The bigoted rants of the Tea Party and the ultra-right wings obstructionist agenda have resulted in a political stalemate unlike any other in recent American history. These reactionary politics coupled with the Democratic Party and Obama Administrations inability to articulate an effective counter-narrative and employ effective countermeasures has left America in a political abyss. **Politics Another Perspective: Analysis of Race, War, Ethics and the American Political Landscape in the Age of Obama** is a collection of Op Eds written by Wilmer J. Leon, III, Ph.D. As a collection, these writings provide cutting edge analysis of the various issues that influenced the American geopolitical landscape since 2006 and insight into the direction that the country is headed. Wilmer Leon is one of the few Black prophetic voices in the age of Obama. This book confirms this status courageous, visionary and consistent! Dr. Cornel West Dr. Wilmer Leon has assembled a collection that asks the right questions about race and democracy. In an era when too many are silenced for fear of rocking the boat of the status quo, Wilmer Leon has signaled his willingness to go out on a limb and speak truth to power. Bravo! Dr. Julianne Malveaux, Economist and Author **Are We Better Off: Race, Obama and Public Policy**.

As long as there have been U.S. colleges and universities, there have been entry courses that pose difficulties for students -- courses that have served more as "weeding-out" rather than "gearing-up" experiences for undergraduates. This volume makes the case that the weed-out dynamic is no longer acceptable -- if it ever was. Contemporary postsecondary education is characterized by vastly expanded access for historically underserved populations of students, and this new level of access is coupled with increased scrutiny of retention and graduation outcomes. ... Chapters in this volume define and explore issues in gateway courses and provide various examples of how to improve teaching, learning and outcomes in these foundational components of the undergraduate experience"--Back cover.

**Asian/American Curricular Epistemicide** Jun 19 2021 In this important book, Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write. Asian Americans have once again been constructed as the "good minority" that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling "a single story" about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it "discourages others—even Asian-Americans themselves—from believing in the validity of their struggles" (Linshi, 2014, p. 1).

**The Positive Second Amendment** Feb 02 2020 Provides the first comprehensive post-Heller account of the Second Amendment as constitutional law - dispelling many myths along the way.

**The Domestic Dimension of Public Diplomacy** Jul 29 2019 This book explores new grounds that public diplomacy is entering today, as domestic publics come to the forefront of the policy - acting both as foreign policy constituencies and public diplomacy actors cooperating with their foreign counterparts. The author discusses the phenomena of public diplomacy's domestic dimension described as government's ability to engage its own society in foreign policy practices through information, cooperation and identity-defining. By analysing data from over 80 recorded interviews with Australian, Norwegian and American public diplomacy practitioners, this volume illustrates both successful and unsuccessful models of such cooperation. From Norwegian Peace Diplomacy, through Australia's ambivalent engagement with Asia, to U.S. Government-sponsored exchange programs, the author argues that governments around the world are slowly accepting a paradigm shift in diplomatic practice from monological/dialogical to a more collaborative public diplomacy. This book is an essential resource for students, scholars, experts and diplomats interested in world's best-practices of engaging domestic civil society actors in foreign policy statecraft.

**John Trevisa's Information Age** Jun 27 2019 What would medieval English literature look like if we viewed it through the lens of the compendium? In that case, John Trevisa might come into focus as the major author of the fourteenth century. Trevisa (d. 1402) made a career of translating big informational texts from Latin into English prose. These included Ranulph Higden's Polychronicon, an enormous universal history, Bartholomaeus Anglicus's well-known natural encyclopedia De proprietatibus rerum, and Giles of Rome's advice-for-princes manual, De regimine principum. These were shrewd choices, accessible and on trend: De proprietatibus rerum and De regimine principum had already been translated into French and copied in deluxe manuscripts for the French and English nobility, and the Polychronicon had been circulating England for several decades. This book argues that John Trevisa's translations of compendious informational texts disclose an alternative literary history by way of information culture. Bold and lively experiments, these translations were a gamble that the future of

literature in England was informational prose. This book argues that Trevisa's oeuvre reveals an alternative literary history more culturally expansive and more generically diverse than that which we typically construct for his contemporaries, Geoffrey Chaucer and William Langland. Thirteenth- and early fourteenth-century European writers compiled massive reference books which would shape knowledge well into the Renaissance. This study maintains that they had a major impact on English poetry and prose. In fact, what we now recognize to be literary properties emerged in part from translations of medieval compendia with their inventive ways of handling vast quantities of information.

**India and China Mar 29 2022** This book examines the changing dynamics of the issues between India and China in the wake of extensive globalisation, economic slowdown, the trade wars, Covid 19, Galwan and the undercurrents in the emerging new global order. Providing a comprehensive overview of India-China relationship and the role of the USA in the context of India's economic and security cooperation in the region, it argues that India-China relations are too complex to be defined through the binary of friendship and enmity, since it includes an element of cooperation, competition, coordination and as well as conflict and confrontation. The book also opens new avenues for research. As such it is of interest to researchers and students of Asian studies, Asian history, China studies, peace and conflict studies and international relations.

**The Bloomsbury Handbook of Culture and Identity from Early Childhood to Early Adulthood Aug 29 2019** How do children determine which identity becomes paramount as they grow into adolescence and early adulthood? Which identity results in patterns of behaviour as they develop? To whom or to which group do they feel a sense of belonging? How might children, adolescents and young adults negotiate the gap between their own sense of identity and the values promoted by external influences? The contributors explore the impact of globalization and pluralism on the way most children and adolescents grow into early adulthood. They look at the influences of media and technology that can be felt within the living spaces of their homes, competing with the religious and cultural influences of family and community, and consider the ways many children and adolescents have developed multiple and virtual identities which help them to respond to different circumstances and contexts. They discuss the ways that many children find themselves in a perpetual state of shifting identities without ever being firmly grounded in one, potentially leading to tension and confusion particularly when there is conflict between one identity and another. This can result in increased anxiety and diminished self-esteem. This book explores how parents, educators and social and health workers might have a raised awareness of the issues generated by plural identities and the overpowering human need to belong so that they can address associated issues and nurture a sense of wholeness in children and adolescents as they grow into early adulthood.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

**Non-Inclusive Education in Central and Eastern Europe Feb 13 2021** This book presents research into inclusive education in Central and Eastern Europe (CEE), written by scholars based in CEE. Inclusive education has become a framework for understanding and embracing

diversity but most of the research in this area has been carried out in intercultural or culturally diverse settings within a relatively inclusive and open framework of democratic/liberal and multicultural Western societies. Unlike many Western societies, the realities of CEE countries are often much less diverse and connected with different fragile historical and political processes, which puts tackling sensitive topics in a different context. The editors and contributors address the dominant Western ways of looking at inclusive and global education in CEE. They argue that Western leveraged pedagogy has been imposed on CEE and outline the context-specific problems of teaching global education in CEE. Collectively, the chapters offer critical responses to the issues of exclusion and exclusionary practices of 'silenced' minorities in CEE. Written by academics based in Czech Republic, Germany, Hungary Poland, Romania and Russia, the book cover topics including Roma genocide in Poland, teaching about Islam and teaching about LGBTQ+ issues. The book includes a preface written by Jacqueline Bhabha, Professor of the Practice of Health and Human Rights at Harvard University, USA.

**Creating the Creation Museum** Apr 17 2021 Investigates how the Christian fundamentalist movement brings Creationism into the mainstream through a Kentucky museum In Creating the Creation Museum, Kathleen C. Oberlin shows us how the largest Creationist organization, Answers in Genesis (AiG), built a museum—which has had over three million visitors—to make its movement mainstream. She takes us behind the scenes, vividly bringing the museum to life by detailing its infamous exhibits on human fossils, dinosaur remains, and more. Drawing on over three years of research at the Creation Museum, where she was granted rare access to AiG's leadership, Oberlin examines how the museum convincingly reframes scientific facts, such as modeling itself on traditional natural history museums. Through a unique historical dataset of over 1,000 internal documents from creationist organizations and an analysis of media coverage, Creating the Creation Museum shows how the museum works as a site of social movement activity and a place to contest the secular mainstream. Oberlin ultimately argues that the Creation Museum has real-world consequences in today's polarized era.
