**Bringing Spanish to Life** Nov 24 2021 Bringing Spanish to Life provides an innovative and refreshing cross-curricular approach to teaching languages in

primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two Spanish children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in Spanish and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study, the book also includes: \* Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT \* Classroom games and activities \* Photocopiable resources and templates for fun classroom activities and projects \* Language extension activities. Bringing Spanish to Life can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc.

**Meme Media and Meme Market Architectures** Jun 19 2021 This book provides an integrated view of the five kinds of enabling technologies in terms of knowledge media architectures: multimedia and hypermedia, object-oriented GUI and visual programming, reusable component software and component integration, network publishing and electronic commerce, and object-oriented and multimedia databases. Among many books on multimedia and hypermedia, few address knowledge. Of those that do, none focus on media for the editing, distribution, and management of knowledge

the way this book does. It is written based on the hypothesis that knowledge media work as genes, with their network publishing repository, working as a gene pool to accelerate the evolution of knowledge shared in our societies.

**The Treasure Box** Apr 29 2022 A moving and ultimately hopeful look at what we hold most dear — and carry with us — when we are forced to flee our homes because of war. When the enemy bombs the library, everything burns, and only one book survives. As war rages around them, Peter and his father, alongside so many refugees, flee their home, taking with them a treasure box that holds something rarer than rubies and more precious than gold. They journey through mud and rain and long cold nights, and soon survival becomes more important than any possession. But as the years go by, Peter never forgets the treasure box, and one day he returns to find it. This moving story from celebrated author Margaret Wild is illustrated with Freya Blackwood's subtly affecting artwork, which incorporates pages of children's books in translation. The result is a haunting and beautiful tale of the power of stories and the resilience of the human spirit.

*Like Magic* Jul 01 2022 "An endlessly endearing story of three girls' pursuit of friendship and the beauty and challenge of what it means to be 10." —Kirkus Reviews (starred review) "Like Magic is truly a treasure." —Liz Garton Scanlon, author of *The Great Good Summer* "Debut novelist Vickers has created three appealing, diverse characters with distinct talents and voices. A sweet story of friendship." —School Library Journal "Themes of sharing, trust, and family never overshadow the story's heart: a natural longing for friendship and the unfettered joy of finding it." —Publishers Weekly "Endearing. The setting and gracefully embedded ethnic differences add freshness to a story with a message that will stand the test of time: friendship is like magic." —Booklist For three ten-year-old girls, their once simple worlds are starting to feel too big. Painfully shy Grace dreads starting fifth grade now that her best friend has moved away. Jada hopes she'll stop feeling so alone if she finds the mother who left years ago. And Malia fears the arrival of her new baby sister will forever change the family she loves. When the girls each find a mysterious treasure box in their library and begin to fill the box with their own precious things, they start to feel less alone. But it's up to Grace, Jada, and Malia to take the treasures and turn them into something more: true friendship.

They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Pirates Jan 27 2022 Based on a pirate theme, this social understanding program is for preschool-to third-grade children who have social cognitive challenges, including autism spectrum disorders (ASD). The program is designed to help these children learn constructive social interaction skills in the area of friendship making, social problem solving, and emotional expression. This eight-adventure pirate voyage includes the following focus areas: social understanding, friendship making, emotional literacy and emotional expression, relaxing, social problem solving, and responding to bullying incidents. Some of the adventures include: "Pirates and Buccaneers" where the pirates are introduced to helpful versus unhelpful ways of being a friend, and "Shiver Me Timbers" where the pirates explore appropriate ways to express their emotions. The program is divided into four levels:

preschool/kindergarten, grade 1, grade 2, and grade 3, and is to be facilitated during school time by a teacher, counselor, therapist, or paraprofessional (the captain) with either the full class or a small group (the pirates). A newsletter titled "Ship-to-Shore" outlining each adventure is provided for home to ensure that children have an opportunity to transfer their learning across home and school contexts.

**Our Children and Other Animals** Jun 27 2019 Focusing on the socialization of the human use of other animals as resources in contemporary Western society, this book explores the cultural reproduction of human-nonhuman animal relations in childhood. With close attention to the dominant practices through which children encounter animals and mainstream representations of animals in children's culture - whether in terms of the selective exposure of children to animals as pets or as food in the home or in school, or the representation of animals in mass media and social media - *Our Children and Other Animals* reveals the interconnectedness of studies of childhood, culture and human-animal relations. In doing so it establishes the importance of human-animal relations in sociology, by describing the sociological importance of animals in children's lives and children in animals' lives. Presenting a new typology of the various kinds of human-animal relationship, this conceptually innovative book constitutes a clear demonstration of the relevance of sociology to the interdisciplinary field of human-animal relations and will appeal to readers across the social sciences with interests in sociology, childhood studies, cultural and media studies and human-animal interaction.

The Secret Mar 29 2022 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of *THE SECRET*. Are you smart enough? *THE SECRET: A TREASURE HUNT* was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box

in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

Classroom Reading to Engage the Heart and Mind: 200+ Picture Books to Start SEL Conversations Aug 29 2019 Storybook characters and situations are perfect for launching discussions of social emotional learning—why not let them help? In picture books, well-loved characters deal with many of the same problems students face in their own lives. What better resource could there be for encouraging students to think about their actions and responses? Using classroom texts to start SEL conversations— during an interactive read- aloud or an extension of shared close- reading lessons— weaves social emotional learning organically into the fabric of an existing curriculum rather than adding a new block to the day. In a book perfect for a study group or for immediate use in the classroom, literacy educator Nancy Boyles connects the dots between the competencies identified by leaders in the SEL field with the rich content of children's literature. More than 200 award- winning picture books are profiled along the way as she unpacks each SEL skill, sketches typical classroom situations in which teachers might not see that skill demonstrated, discusses what to look for in books that address it, and provides carefully crafted sets of questions to explore with students.
