Us Aug 21 2021 David Nicholls brings the wit and intelligence that graced his international bestseller One Day to a compellingly human, deftly humorous new novel about what holds marriages and families together—and what happens when everything threatens to fall apart. Douglas Petersen may be mild mannered, but behind his reserve lies a sense of humour that, against all odds, seduces beautiful Connie into a second date... and eventually into marriage. Now, almost three decades after their relationship first blossomed in London, they live more or less happily in the suburbs with their moody seventeen-year-old son, Albie. Then Connie tells Douglas she thinks she wants a divorce. The timing couldn't be worse. Hoping to encourage her son's artistic interests, Connie has planned a month-long tour of European capitals, a chance to experience the world's greatest works of art as a family, and she can't bring herself to cancel. And maybe going ahead with the original plan is for the best anyway? Douglas is privately convinced that this landmark trip will rekindle the romance in the marriage, and may even help him to bond with Albie. Narrated from Douglas's endearingly honest, slyly witty, and at times achingly optimistic point of view, Us is the story of a man trying to rescue his relationship with the woman he loves and learning how to get closer to a son who's always felt like a stranger. Us is a moving meditation on the demands of marriage and parenthood as well as the intricate relationship between the heart and the head. In David Nicholls's gifted hands, Douglas's odyssey brings Europe—from the streets of Amsterdam to the famed museums of Paris, from the cafes of Venice to the beaches of Barcelona—to vivid life just as he experiences a powerful awakening of his own. Will this summer be his last as a husband, or the moment when he turns his marriage, and maybe even his whole life, around?

The End Jan 14 2021 A man fights to protect his family in this postapocalyptic survival novel—the first in the New World series. Young Gordon Van Zandt valued duty and loyalty to country above all, so after 9/11, he dropped out of college and joined the Marine Corps. This idealism vanished one fateful day in a war-torn city in Iraq. Ten years later, he is still struggling with the ghosts of his past when a new reality is thrust upon him and his family: North America, Europe and the Far East have all suffered a devastating Super-EMP attack, which causes catastrophic damage to the nation's power grid and essential infrastructures. Everything from cell phones to cars to computers cease to function, putting society at a standstill. With civilization in chaos, Gordon must fight for the limited and fast dwindling resources. He knows survival requires action and cooperation with his neighbors, but as the days wear on, so does all sense of civility within his community—and so he must make some of the most difficult decisions of his life in order to ensure his family's safety.

Globalization and Armed Conflict Aug 28 2019 Globalization and Armed Conflict addresses one of the most important and controversial issues of our time: Does global economic integration foster or suppress violent disputes within and between states? Here, cutting-edge research by leading figures in international relations shows that expanding commercial ties between states pacifies some, but not necessarily all, political relationships. The authors demonstrate that the pacific effect of economic integration hinges on democratic structures, the size of the global system, the nature of the trade goods, and a reduced influence of the military on political decisions. In sum, this book demonstrates how important the still fragile "capitalist peace" is.

A Series of Unfortunate Events #13 CD: The End Jul 20 2021 Dear Listener, You are presumably looking at the back of this audiobook, or the end of the end. The end of the end is the best place to begin the end, because if you listen to the end from the beginning of the beginning of the end to the end of the end of the end, you will arrive at the end of the end of your rope. This audiobook is the last in A Series of Unfortunate Events, and even if you braved the previous twelve volumes, you probably can't stand such unpleasantness as a fearsome storm, a suspicious beverage, a herd of wild sheep, an enormous bird cage, and a truly haunting secret about the Baudelaire parents. I also shouldn't mention the features of the interactive CD, which include: Perplexing word games Photos from The Lemony Snicket Archives Art from The Brett Helquist gallery It has been my solemn occupation to complete the history of the Baudelaire orphans, and at last I am finished. You likely have some other occupation, so if I were you I would drop this audiobook at once, so the end does not finish you. With all due respect, Lemony Snicket

Ball of Fire Aug 01 2022 As a movie actress Lucille Ball was, in her own words, “queen of the B-pluses.” But on the small screen she was a superstar—arguably the funniest and most enduring in the history of TV. In this exemplary biography, Stefan Kanfer explores the roots of Lucy's genius and places it in the context of her conflicted and sometimes bitter personal life. Ball of Fire gives us Lucy in all her contradictions. Here is the beauty who became a master of knock-down slapstick; the control freak whose comic alter ego thrived on chaos, the worshipful TV housewife whose real marriage ended in public disaster. Here, too, is an intimate view of the dawn of television and of the America that embraced it. Charming, informative, touching, and laugh-out-loud funny, this is the book Lucy's fans have been waiting for.

LEXX Unauthorized, Series 2: The Light at the End of the Universe Oct 03 2022 LEXX Unauthorized, Series 2 - The continuing story of Kai, an undead assassin, Zev, a combination of love slave and cluster lizard, Stanley Tweedle, a hapless security guard and 790, a robot head, careening through space together in the LEXX, a stolen, planet destroying, biological warship shaped like a dragonfly. In the second series, the crew travel through space, searching for a new home, or at least a good time, while in their wake a mysterious force is destroying the universe. LEXX was one of the strangest and most wildly surreal space operas ever conceived, owing as much to Luis Bunuel and Alejandro Jodorowsky as to Star Trek and Star Wars. It was unique and unforgettable, mixing black comedy and absurdism with epic drama, and an astonishing visual sense. Backstage, the story of the creation of the series was even more extraordinary, a tale of regional Atlantic film makers, renegade artists, cult film makers, wild experimentation, Canadian cultural nationalism, German entrepreneurs, new computer generated imagery technologies and backstage chaos intersecting in wildly unpredictable ways, to create truly exotic images and stories. The product of years of research and dozens of interviews, this is a “must buy” for any fan of the show itself or of science fiction movies television generally, and an eye opening insight into film and television production, especially Canadian and international productions.
