Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban

Schools of Malawi: A synergy of pupils needs, policies and practiceJul 08 2020 HIV/AIDS has been named the Sub Saharan disease. In countries that have achieved significant declines in HIV prevalence, young people have registered the biggest behavioural changes. It means they hold the keys not only to our understanding of the epidemic, but more importantly, to the efforts required to stem the tide of infections. However, the majority of young people are ignorant of how to prevent transmission, have low compliance to condom use, which is in some cases accentuated by misconceptions about HIV/AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours. As such, consensus on feasible preventive interventions target young people, particularly those in schools. It is on this premise that the book unlocks the key pillars in effective HIV/AIDS education policies and practices.The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom, the extent to which the classroom practices respond to the needs, and the factors influencing these using questionnaires, interviews, lesson observations, and document analysis. Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems. Given the similar cultural settings of the people of Sub Saharan Africa, the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent. The book shows the need for open discussion climates on HIV/AIDS issues despite a conservative cultural and religious adult world that is not open. It has also identified a need for explicit and accurate knowledge on HIV/AIDS issues, opportunities to acquire behavioural skills for HIV prevention, and involvement of external speakers in classroom HIV/AIDS education.Current classroom practice does not address the pupils' needs adequately. Factors influencing this can be linked to lack of policies responsive to culture and religion, ineffective and inadequate teaching policy guidelines, and lack of a policy prioritising HIV/AIDS education. The findings suggest that in future, effective HIV/AIDS Education needs to be informed by the pupils' needs. To address these needs, support from the wider society and related policies, coupled with appropriate management and classroom practice will be required. The book is therefore an indispensable tool for education systems in Sub Saharan Africa. It provides an effective model for [...]

Developing and Managing High Quality Services for People with Learning Disabilities Apr 04 2020 First published in 1998 , This timely book describes the challenges that need to be met in bringing together health and social services into a partnership to create effective and responsive services. It presents the reader with both conceptual frameworks and practical examples on how change can be managed and the momentum maintained towards the development of a quality service. The authors present practical examples and reflect on what worked and what was not successful. Over twenty writers (staff and managers, senior and junior, qualified and unqualified) describe focused work in particular areas which will be of interest to any service for this user group. Throughout, the emphasis is on how to deliver an accessible good quality service and how this can be safeguarded in the future. Fifty years after the establishment of the NHS, and nearly twenty five years since the establishment of British Social Services departments, this book articulates a modern, practical and principled vision of community based services to vulnerable people.

Becoming an Effective Policy Advocate Apr 16 2021 In this book, you will find a compelling focus on "policy advocacy" - policy practice geared toward helping oppressed, stigmatized, or powerless outgroups, including African Americans, Latinos, Native Americans, women, children, gay men and lesbians, and people with disabilities. From agenda setting, problem analysis, and proposal writing to policy enactment, implementation, and assessment, you'll develop the skills you need to promote change in social welfare policy.

Euroization Drivers and Effective Policy Response: An Application to the case of Albania Oct 23 2021 This paper proposes a methodology to develop empirically based and theoretically consistent deeuroization policies. It is derived from the experience of Albania. The paper is the first attempt to provide an empirical measure of the optimal level of euroization. The results indicate that euroization is trending above the estimated measure in Albania, calling for deeuroization policies. In the long term, deeuroization requires maintaining the commitment to low and stable inflation in a context of greater exchange rate flexibility to encourage saving in local currency. In the short term, policies that mitigate the financial stability risk due to euroization contribute to deeuroization inasmuch as they make banking intermediation in euro less financially attractive to the public.

Every Place Matters Nov 11 2020 Across the globe policy makers implement, and academics teach and undertake research upon, place-based policy. But what is place-based policy, what does it aspire to achieve, what are the benefits of place-based approaches relative to other forms of policy, and what are the key determinants of success for this type of government intervention? This Policy Expo examines these questions, reviewing the literature and the experience of places and their governments around the world. We find place-based policies are essential in contemporary economies, providing solutions to otherwise intractable challenges such as the long-term decline of cities and regions. For those working in public sector agencies the success or failure of place-based policies is largely attributable to governance arrangements, but for researchers the community that is the subject of this policy effort, and its leadership, determines outcomes. This Policy Expo explores the differing perspectives on place-based policy and maps out the essential components of effective and impactful actions by government at the scale of individual places.

Building an Effective Information Security Policy Architecture Dec 25 2021 Information security teams are charged with developing and maintaining a set of documents that will protect the assets of an enterprise from constant threats and risks. In order for these safeguards and controls to be effective, they must suit the particular business needs of the enterprise. A guide for security professionals, Building an Effective Information Security Policy Architecture explains how to review, develop, and implement a security architecture for any size enterprise, whether it is a global company or a SMB. Through the use of questionnaires and interviews, the book demonstrates how to evaluate an organization's culture and its ability to meet various security standards and requirements. Because the effectiveness of a policy is dependent on cooperation and compliance, the author also provides tips on how to communicate the policy and gain support for it. Suitable for any level of technical aptitude, this book serves a guide for evaluating the business needs and risks of an enterprise and incorporating this information into an effective security policy architecture.

OECD Public Governance Reviews Preventing Policy Capture Integrity in Public Decision Making Dec 01 2019 This report exposes how "policy capture", where public decisions over policies are consistently or repeatedly directed away from the public interest towards a specific interest, can exacerbate inequalities and undermine democratic values, economic growth and trust in government.

Routledge Handbook of Policy Design Oct 11 2020 Uniting theoretical bases and advancements in practice, the Routledge Handbook of Policy Design brings together leading experts in the academic field of policy design in a pioneering effort of scholarship. Each chapter provides a multi-topic overview of the state of knowledge on how, why, where or when policies are designed and how such designs can be improved. These experts address how a new emphasis on effective policy design has re-emerged ?in public policy studies in recent years ?and ?clarify the role of historical policy decisions, policy capacities and government intentions in promoting a design orientation towards ?policy formulation and policy-making more generally. They examine many previously unexplored aspects of policy designs and designing activities, which focus upon analyzing and improving the sets of policy tools adopted by governments to correct policy problems. Ranging from the fundamentals of policy design and its place in greater policy studies, to new questions regarding policy design content and ?effectiveness, to contemporary design trends such as the use of digital tools and big data, the Routledge Handbook of Policy Design is a comprehensive reference for students and scholars of public policy, public administration and public management, government and business.

How can the Nordic mix of policy instruments become more effective? Jun 06 2020 Available online: https://pub.norden.org/temanord2021-539/ The Nordic economies are strongly integrated but have chosen different pathways and climate policy instruments to reduce their climate impact. Therefore, the Nordic economic actors have different incentives, even though they operate in the same integrated markets. This

can lead to negative spill-over effects on neighbouring countries.This report presents examples of such negative effects within transportation, waste management, energy production. Following an analysis of these, the report identifies a series of barriers for the countries to avoiding the counterproductive, spill-over effects. The report concludes by summing up recommendations for possible improvements the Nordic collaboration.The report has been prepared by COWI. It has included a desk study, stakeholder interviews and two cross-Nordic workshops to verify the findings and identify Nordic challenges and opportunities

Teenage Pregnancy and Young Parenthood Sep 09 2020 Teenage Pregnancy and Young Parenthood provides a comprehensive, unparalleled insight into the UK Government's highly successful Teenage Pregnancy Strategy (TPS) for England which reduced the under-18 pregnancy rate by well over 50%, and considers how the lessons from this policy can be applied internationally. This important book captures and shares the lessons from the TPS for future governments and policy makers, and documents the details of implementing a long-term strategy with its innovative approach to policy issues. After providing the rationale for prioritising teenage pregnancy, the book demonstrates evidence for what is effective, both in helping young people avoid unplanned pregnancy and in improving outcomes for young parents. The TPS is analysed against the World Health Organisation's key actions for effective scale-up of adolescent sexual and reproductive health programmes, to offer an important contribution to international understanding of this global public health challenge. Advocating a 'whole systems' multi-agency approach this book translates evidence into clear action, and combines theory and practice with illustrative case studies to demonstrate how to implement policy successfully. It is valuable reading for policy makers and practitioners dealing with young people's health, as well as undergraduate and postgraduate students in the fields of psychology, health studies, social work, youth work, education, social policy, sociology and related disciplines.

Creating an Effective Management SystemJan 02 2020 Despite the vast library of knowledge on Lean tools and models, the majority of Lean implementations fail to sustain themselves over time for lack of what David Mann in Creating a Lean Culturecalls "the missing link in Lean" -- the Management System. In turn, however, when organizations try to apply a prescribed, one-size-fits-all, management system they inevitably find that what works for others may not work quite as well in their unique situation. Putting the right pieces in the right places, for the right reasons, is a unique challenge for every organization and no two successful management systems will, or should, be the same. This book will look at core principles that need to be in place for organization to find their own answers to what a good management system should constitute for them. It will outline key elements, and how they work together as a "system," necessary to achieve overall success in a business. Based on these principles, the authors will demonstrate how we can "act our way into a new way of thinking" which nurtures the latent creativity and

motivation of our people instead of trying, and ultimately failing, to "implement" an entire structure or system upon an unwilling workforce. Based on their extensive experience with organizational development and hands-on leadership in Policy Deployment, TWI and Kata, the authors will describe their own journey in helping organizations discover and develop systems that function like well-designed and smooth-running machines, all the while capturing the humanistic aspects of the foundational skills needed to bring out the inherent synergy of the system. Readers will learn to help their own organizations "connect the dots" between the various pieces of Lean practice they put into play and effectively create their own management systems which ultimately fulfil customers' needs and expectations. World Development Report 2017 Aug 28 2019 Why are carefully designed, sensible policies too often not adopted or implemented? When they are, why do they often fail to generate development outcomes such as security, growth, and equity? And why do some bad policies endure? World Development Report 2017: Governance and the Law addresses these fundamental questions, which are at the heart of development. Policy making and policy implementation do not occur in a vacuum. Rather, they take place in complex political and social settings, in which individuals and groups with unequal power interact within changing rules as they pursue conflicting interests. The process of these interactions is what this Report calls governance, and the space in which these interactions take place, the policy arena. The capacity of actors to commit and their willingness to cooperate and coordinate to achieve socially desirable goals are what matter for effectiveness. However, who bargains, who is excluded, and what barriers block entry to the policy arena determine the selection and implementation of policies and, consequently, their impact on development outcomes. Exclusion, capture, and clientelism are manifestations of power asymmetries that lead to failures to achieve security, growth, and equity. The distribution of power in society is partly determined by history. Yet, there is room for positive change. This Report reveals that governance can mitigate, even overcome, power asymmetries to bring about more effective policy interventions that achieve sustainable improvements in security, growth, and equity. This happens by shifting the incentives of those with power, reshaping their preferences in favor of good outcomes, and taking into account the interests of previously excluded participants. These changes can come about through bargains among elites and greater citizen engagement, as well as by international actors supporting rules that strengthen coalitions for reform.

Effective Implementation In Practice May 18 2021 A unique approach to policy implementation with essential guidance and useful tools Effective Implementation in Practice: Integrating Public Policy and Management presents an instrumental approach to implementation analysis. By spanning policy fields, organizations, and frontline conditions in implementation systems, this book provides a robust foundation for policy makers, public and nonprofit managers and leaders. Detailed case studies enable readers to identify key intervention points, become more strategic, and improve outcomes. The engaging style and specific examples provide a bridge to practice, while diagrams, worksheets, and other tools included in the appendix help managers apply these ideas to team meetings, operational planning, and program assessment and refinement. Policy and program implementation is fraught with challenges as public and nonprofit leaders juggle organizational missions and stakeholder expectations while managing policy and program impact and effectiveness. Using their own experience in practice, teaching,

and research, the authors empower policy and program implementers to recognize their essential roles within the workplace and help them cultivate the analytical and social skills necessary to change. Understand how program or policy technology constitutes the core of implementation Study a conceptual framework encompassing power dynamics, culture, relationships in the field and the rules that are operating during program and policy implementation Discover a multilevel approach that identifies key points of strategic action at various levels and settings of the implementation system and assesses implementation success The integration of policy and management mindsets gives readers an insightful yet accessible understanding of implementation, allowing them to achieve the potent results desired by the public. For those in senior positions at federal agencies to local staff at nonprofit organizations, Effective Implementation in Practice: Integrating Public Policy and Management provides an invaluable one-stop resource.

Focus on governance for more effective policy and technical support Oct 30 2019 There are eight years

left to reach the SDGs. Agrifood systems transformation is urgently needed if we are to achieve sustainability, resilience and food security and nutrition in a post-COVID world. This desired transformation can only be achieved by strengthening and capitalizing on the knowledge, experience, skills, and capabilities for collective action of a broad range of public and private actors each of whom bring distinctive interests, needs, resources, influence and capacities. "Governance" is the name for this multidimensional capability for effective and inclusive collective action at all levels. In many country contexts, it is the governance bottlenecks that lead to a gap between policy expectations and their outcomes on the ground. For example, a given policy intervention can make a lot of economic sense but if it is perceived as threatening a powerful interest group or not sufficiently considering that group's interests, it will most probably fail. Understanding the governance – both institutions and political economy – behind existing agrifood systems can thus make or break the success of any policy or technical support work. Bringing together insights from FAO's rich experience and knowledge and global literature, this paper introduces an operational four-phased framework for analysis and integration of governance analysis and action into formulation and implementation of interventions at country, regional and global levels. It also provides a review of recent trends in expert thinking about governance for sustainable development and highlights FAO's conceptual contributions to governance in the areas of FAO's mandate. The increased use of governance analysis in FAO's work will stimulate iterative collective learning processes and honest evaluation of potential for change thus supplementing technical solutions with approaches based on a solid understanding of practical and political realities on the ground. With its emphasis on continual learning and adaptation, governance analysis will enable FAO to significantly improve the effectiveness of its policy and technical support to Members to achieve sustainable development that leaves no one behind.
