On the Death and Life of Languages Mar 16 2021

Twenty-five languages die each year; at this pace, half the world's five thousand languages will disappear within the next century. In this timely book, Claude Hagège seeks to make clear the magnitude of the cultural loss represented by the crisis of language death. By focusing on the relationship of language to culture and the world of ideas, Hagège shows how languages are themselves crucial repositories of culture; the traditions, proverbs, and knowledge of our ancestors reside in the language we use. His wide-ranging examination covers all continents and language families to uncover not only how languages die, but also how they can be revitalized—for example in the remarkable case of Hebrew. In a striking metaphor, Hagège likens languages to bonfires of social behavior that leave

behind sparks even after they die; from these sparks languages can be rekindled and made to live again.

Sustainable Conservation and Urban Regeneration Oct 11 2020

This book documents research activities and design experimentation carried out within the scope of a project addressing conservation, urban regeneration, responsible use of resources, and sustainable development in a truly exceptional place: the city of Luxor. The project is a collaborative venture between the Politecnico di Milano, the Supreme Council of Antiquities of Egypt, and the Luxor Governorate and is one outcome of a program established by the Egyptian government in 2009 with the goal of discovering a buried treasure, the "Avenue of Sphinxes", which connected the Karnak and Luxor temples in ancient times. Readers will find an account of the excavations themselves, discussion of issues in restoration and conservation, and, above all, archeological

War. Alfa Ndiaye is a Senegalese man who, never before having left his village, finds himself fighting as a so-called "Chocolat" soldier with the French army during World War I. When his friend Mademba Diop, in the same regiment, is seriously injured in battle, Diop begs Alfa to kill him and spare him the pain of a long and agonizing death in No Man's Land. Unable to commit this mercy killing, madness creeps into Alfa's mind as he comes to see this refusal as a cruel moment of cowardice. Anxious to avenge the death of his friend and find forgiveness for himself, he begins a macabre ritual: every night he sneaks across enemy lines to find and murder a blue-eyed German soldier, and every night he returns to base, unharmed, with the German's severed hand. At first his comrades look at Alfa's deeds with admiration, but soon rumors begin to circulate that this super soldier isn't a hero, but a sorcerer, a soul-eater. Plans are hatched to get Alfa away from the front, and to

separate him from his growing collection of hands, but how does one reason with a demon, and how far will Alfa go to make amends to his dead friend? Peppered with bullets and black magic, this remarkable novel fills in a forgotten chapter in the history of World War I. Blending oral storytelling traditions with the gritty, day-to-day, journalistic horror of life in the trenches, David Diop's *At Night All Blood is Black* is a dazzling tale of a man's descent into madness.

_____ The bookies always win. But one man has been proving them wrong for four decades. In the summer of 1975 Barney Curley, a fearless and renowned gambler, masterminded one of the most spectacular gambles of all time with a racehorse called Yellow Sam. With a meticulous, entirely legal plan involving dozens of people, perfectly timed phone calls, sealed orders and months of preparation, Curley and Yellow Sam beat the bookmakers and cost them millions. **They're Siding**

[The Sport of Kings and the Kings of Crime](#) Feb 12 2021

Thoroughbred racing was one of the first major sports in early America. Horse racing thrived because it was a high-status sport that attracted the interest of both old and new money. It grew because spectators enjoyed the pageantry, the exciting races, and, most of all, the gambling. As the sport became a national industry, the New York metropolitan area, along with the resort towns of Saratoga Springs (New York) and Long Branch (New Jersey), remained at the center of horse racing with the most outstanding race

courses, the largest purses, and the finest thoroughbreds. Riess narrates the history of horse racing, detailing how and why New York became the national capital of the sport from the mid-1860s until the early twentieth century. The sport's survival depended upon the racetrack being the nexus between politicians and organized crime. The powerful alliance between urban machine politics and track owners enabled racing in New York to flourish. Gambling, the heart of racing's appeal, made the sport morally suspect. Yet democratic politicians protected the sport, helping to establish the State Racing Commission, the first state agency to regulate sport in the United States. At the same time, racetracks became a key connection between the underworld and Tammany Hall, enabling illegal poolrooms and off-course bookies to operate. Organized crime worked in close cooperation with machine politicians and local police officers to protect these illegal operations. In [The Spirit of Liberty](#)

extraordinarily intense, racking, and resonant novel.” —Booklist (starred review) One of the most acclaimed writers in the world today, the inimitable Joyce Carol Oates follows up her searing, New York Times bestselling memoir, *A Widow’s Story*, with an extraordinary new work of fiction. *Mudwoman* is a riveting psychological thriller, taut with dark suspense, that explores the high price of repression in the life of a respected university president teetering on the precipice of a nervous breakdown. Like Daphne DuMaurier’s gothic masterwork, *Rebecca*, and the classic ghost story, *The Turn of the Screw*, by Henry James, Oates’s *Mudwoman* is a chilling page-turner that hinges on the power of the imagination and the blurry lines between the real and the invented—and it stands tall among the author’s most powerful and beloved works, including *The Falls*, *The Gravedigger’s Daughter*, and *We Were the Mulvaney*. *L'idée de l'amour* Jan 26 2022 Journaliste hippique et écrivain

raté, Philippe Waxman signe des livres de commande sous le pseudonyme de Ribot, pur-sang légendaire des années 50, invaincu en course. Son éditeur lui confie une mission délicate : obtenir un texte de François Rongières, sommité littéraire et amateur de chevaux, auquel Waxman a voué un culte dans sa jeunesse. Rongières a débuté dans la mouvance du Nouveau roman avant de remporter le prix Goncourt et de manquer le Nobel. Figure d’un autre temps, misanthrope et taiseux, il vit désormais retiré à la campagne, protégé par sa jeune épouse, Elisabeth. Défi relevé par le journaliste, auquel ce retour dans le passé n’est pas pour déplaire. Encore moins lorsqu’il découvre que la femme de Rongières n’est autre que son amour de jeunesse, Elisabeth Vuibert, rencontrée sur les bancs de la Sorbonne. Mais la propriété des Rongières abrite aussi Tiffany, jeune lady solitaire et sauvage, éprise de chevaux, et singulièrement de sa jument Litote... Les victoires du pur-sang Ribot sont l'opposé de sa

défaites de Waxman, jamais en prise sur la réalité, spectateur de l'existence des autres.

Réussira-t-il, enfin, à entrer dans le coeur de la vie ? Ou bien devra-t-il se contenter, toujours, de l'idée de l'amour ? "L'idée du chemin finit par remplacer le chemin. Et l'idée de l'amour remplace l'amour".

Avec délicatesse et mordant, Mark Greene livre ici un grand roman sur l'amertume (celle de Waxman mais aussi celle de Rongières, ressassant son échec au Nobel) et la nécessité d'agir, de prendre les devants, avant qu'il ne soit trop tard.

In 2001, a stranger from Texas entered the high-stakes poker room in the Bellagio casino in Las Vegas. A self-made billionaire, he challenged some of poker's greatest players to a series of heads-up matches. By the end, there was more than \$20 million on the table. For the first time ever, here is the detailed, true account of the legendary Big Game that shocked the poker world. Putting you railside to observe the pulse-pounding action, it takes you inside the iron-nerved mind of the professional gambler. Filled with vivid characters, sensational tales, and riveting human drama, this is a unique, suspenseful journey into the world of people who live on the razor's edge of fortune-where incredible wealth or utter ruin turn on the flip of a card.

Batia Suter Dec 01 2019 The imagery in this book, which revolves around radial shapes and concepts, also forms the basis of a video work in the exhibition. Specific for the book is the use of two separate layers of black ink, allowing

Suter to create double images and to merge patterns and screens. Departing from pages scanned from her collection of second hand tomes--mainly concerning natural science, precision machinery, and art history--Suter freely manipulates them and reorders them within the space of a book, which can be seen as a condensed exhibition on paper. The result is a journey along visual phenomena that reconnects us with the endless curiosity and patience of our younger selves leafing through an encyclopedia, unattended and unable to read, yet all the more sensitive to its inner visual rhymes and correspondences. With a text by Henri Michaux from 1968 [in English translation and French].
