**The Forge of God** Jan 03 2020 This doomsday masterpiece from the author of *Eon* and *Hull Zero Three* was a finalist for the Hugo and Nebula awards. On July 26, Arthur Gordon learns that Europa, the sixth moon of Jupiter, has disappeared. Not hiding, not turned black, but gone. On September 28th, Edward Shaw finds an error in the geological records of Death Valley. A cinder cone was left off the map. Could it be new? Or, stranger yet, could it be artificial? The answer may be lying beside it—a dying Guest who brings devastating news for Edward and for Planet Earth. As more unexplained phenomena spring up around the globe—a granite mountain appearing in Australia, sounds emanating from the earth's core, flashes of light among the asteroids—it becomes clear to some that the end is approaching, and there is nothing we can do. In *The Forge of God*, award-winning author Greg Bear describes the final days of the world on both a massive, scientific scale and in the everyday, emotional context of individual human lives. Facing the destruction of all they know, some people turn to God, others to their families, and a few turn to saviors promising escape from a planet being torn apart. Will they make it in time? And who gets left behind to experience the last moments of beauty and chaos on earth? Nominated for the Nebula, Hugo, and Locus Awards, *The Forge of God* is an engrossing read, breathtaking in its scope and in its detail.

Big Bear Sep 22 2021

ONE Very Big Bear Oct 04 2022 As far as he can tell, Bear is the biggest thing around. He might even be a giant! It's not long before other, smaller animals set him straight in this charmingly illustrated book about counting and relative size. Together, two walruses, three foxes, and so on, are the same size as Bear, each teasing him for foolishly thinking that there is nothing bigger than he. When six sardines arrive to tell Bear that together, they are just as big as he is, Bear has had enough and gobbles them up for breakfast.

**Temptations Of Big Bear** Apr 29 2022 Early in his writing career, Rudy Wiebe's imagination was caught by a heroic character of Cree and Ojibwa ancestry whose birthplace was within twenty-five miles of where Wiebe himself was born 110 years later. The man's name translated into English was Big Bear, and he came to be the subject of one of Wiebe's most highly praised works of fiction. A modern classic, Wiebe's fourth novel is a moving epic of the tumultuous history of the Canadian West. The book won the 1973 Governor General's Award, and in the 1990s was made into a CBC television miniseries based on a script co-written by Wiebe and Métis director Gil Cardinal, shot in Saskatchewan's Qu'Appelle Valley. From the early days of North America, European settlers forced Natives aside, taking over their land on which they had lived for thousands of years. Big Bear envisioned a Northwest in which all peoples lived together peaceably, and in the 1880s made history by standing his ground to keep his Plains Cree nation from being forced onto reserves. The buffalo food supply was vanishing, but Big Bear led his people across the prairie, resisting pressure to cede rights to the land and give up freedom in exchange for temporary nourishment. The struggle brought starvation to his followers, tearing apart the community and eventually his own family. The story follows Big Bear's life as he lives through the last buffalo hunt, the coming of the railway, the pacification of the Native tribes, and his own imprisonment. Wiebe's magnificent interpretation of Western Canadian history encompasses not only his hero's struggle for integrity and justice but also the whole richness of the Plains culture.
