This book tells the fascinating story of the reemergence of the American political left over the last quarter century in the form of the new Progressive Movement. Born out of Liberalism's crushing defeats at the hands of conservative strategists of the Reagan/Bush era, this new

movement has cleverly reverse engineered the conservative's institutional networking strategy to plan and finance its resurgence. Progressive strategists have constructed an elaborate network of foundations, advocacy groups, and other institutions to advance their agenda. But where the conservatives relied on affirmative corporate support to help power their movement, the Progressive Left has used an

anti-corporate strategy whose purpose is three-fold: 1. To reclaim the moral high ground of politics by challenging corporate power and influence. 2. To gain effective control over "other people's money" (e.g., pension funds, mutual funds) and use it to press for changes in corporate social policies. 3. To leverage this influence over corporate decision-making to change the direction of American politics and

public policy. Biz War extends the argument of Manheim's 2001 book, *The Death of A Thousand Cuts*, by showing how anti-corporate campaigns have evolved from economically-oriented labor actions to ideological and programmatic political struggles. It details how the strategies and tactics crafted by organized labor are being employed with increasing effect by the political left. The book will be of interest to students of contemporary American politics, strategic communication, political movements, and business management. Likewise it will help corporate executives and financial analysts understand more fully the proxy wars and other attacks against their companies.

[Mexico's Merchant Elite, 1590-1660](#) Jul 01

2022 Combining social, political, and economic history, Louisa Schell Hoberman examines a neglected period in Mexico's colonial past, providing the first book-length study of the period's merchant elite and its impact on the evolution of Mexico. Through extensive archival research, Hoberman brings to light new data that illuminate the formation, behavior, and power of the merchant class in New Spain. She documents sources and uses of merchant wealth, tracing the relative importance of mining, agriculture, trade, and public office. By delving into biographical information on prominent families, Hoberman also reveals much about the longevity of the first

generation's social and economic achievements. The author's broad analysis situates her study in the overall environment in which the merchants thrived. Among the topics discussed are the mining and operation of the mint, Mexico's political position vis-a-vis Spain, and the question of an economic depression in the seventeenth century.

**The Children of Africa in the Colonies** Feb

13 2021 How emancipation transformed social and political relations in Barbados When a small group of free men of color gathered in 1838 to celebrate the end of apprenticeship in Barbados, they spoke of emancipation as the moment of freedom for all colored people, not just the former slaves. The fact that many of these men had owned slaves themselves gives a hollow ring to their lofty pronouncements. Yet in *The Children of Africa in the Colonies*, Melanie J. Newton demonstrates that simply dismissing these men as hypocrites ignores the complexity of their relationship to slavery. Exploring the role of free blacks in Barbados from 1790 to 1860, Newton argues that the emancipation process transformed social relations between Afro-Barbadians and slaves and ex-slaves. Free people of color in Barbados genuinely wanted slavery to end, Newton explains, a desire motivated in part by the realization that emancipation offered them significant political advantages. As a result, free people's goals for the civil rights struggle that began in Barbados in the 1790s often

diverged from those of the slaves, and the tensions that formed along class, education, and gender lines severely weakened the movement. While the populist masses viewed emancipation as an opportunity to form a united community among all people of color, wealthy free people viewed it as a chance to better their position relative to white Europeans. To this end, free people of color refashioned their identities in relationship to Africa. Prior to the 1820s, Newton reveals, they downplayed their African descent, emphasizing instead their legal status as free people and their position as owners of property, including slaves. As the emancipation debate in the Atlantic world reached its zenith in the 1820s and 1830s and whites grew increasingly hostile and inflexible, elite free people allied themselves with the politics of the working class and the slaves, relying for the first time on their African heritage and the association of their skin color with slavery to openly challenge white supremacy. After emancipation, free people of color again redefined themselves, now as loyal British imperial subjects, casting themselves in the role of political protectors of their ex-slave brethren in an attempt to escape social and political disenfranchisement. While some wealthy men of color gained political influence as a result of emancipation, the absence of fundamental change in the distribution of land and wealth left most men and women of color with little hope of political independence or social mobility. Mining a rich

vein of primary and secondary sources, Newton's study elegantly describes how class divisions and disagreements over labor and social policy among free and slave black Barbadians led to political unrest and devastated the hope for an entirely new social structure and a plebeian majority in the British Caribbean.

### **Intermediate Elites in Pre-Columbian**

**States and Empires** Sep 22 2021 From the Mesoamerican highlands to the Colca Valley in Peru, pre-Columbian civilizations were bastions of power that have largely been viewed through the lens of rulership, or occasionally through bottom-up perspectives of resistance. Rather than focusing on rulers or peasants, this book examines how intermediate elites—both men and women—helped to develop, sustain, and resist state policies and institutions. Employing new archaeological and ethnohistorical data, its contributors trace a 2,000-year trajectory of elite social evolution in the Zapotec, Wari, Aztec, Inka, and Maya civilizations. This is the first volume to consider how individuals subordinate to imperial rulers helped to shape specific forms of state and imperial organization. Taking a broader scope than previous studies, it is one of the few works to systematically address these issues in both Mesoamerica and the Central Andes. It considers how these individuals influenced the long-term development of the largest

civilizations of the ancient Americas, opening a new window on the role of intermediate elites in the rise and fall of ancient states and empires worldwide. The authors demonstrate how such evidence as settlement patterns, architecture, decorative items, and burial patterns reflect the roles of intermediate elites in their respective societies, arguing that they were influential actors whose interests were highly significant in shaping the specific forms of state and imperial organization. Their emphasis on provincial elites particularly shifts examination of early states away from royal capitals and imperial courts, explaining how local elites and royal bureaucrats had significant impact on the development and organization of premodern states. Together, these papers demonstrate that intricate networks of intermediate elites bound these ancient societies together—and that competition between individuals and groups contributed to their decline and eventual collapse. By addressing current theoretical concerns with agency, resistance to state domination, and the co-option of local leadership by imperial administrators, it offers valuable new insight into the utility of studying intermediate elites.

The Other Einstein Oct 31 2019 One of PopSugar's "25 Books You're Going to Curl Up with this Fall." "The Other Einstein takes you into Mileva's heart, mind, and study as she tries to forge a place for herself in a scientific world dominated by men."-Bustle In the tradition of

The Paris Wife and Mrs. Poe, The Other Einstein offers us a window into a brilliant, fascinating woman whose light was lost in Einstein's enormous shadow. It is the story of Einstein's wife, a brilliant physicist in her own right, whose contribution to the special theory of relativity is hotly debated and may have been inspired by her own profound and very personal insight. Mitza Maric has always been a little different from other girls. Most twenty-year-olds are wives by now, not studying physics at an elite Zurich university with only male students trying to outdo her clever calculations. But Mitza is smart enough to know that, for her, math is an easier path than marriage. And then fellow student Albert Einstein takes an interest in her, and the world turns sideways. Theirs becomes a partnership of the mind and of the heart, but there might not be room for more than one genius in a marriage.

**The Son Also Rises** Jul 21 2021 "How much of our fate is tied to the status of our parents and grandparents? How much does this influence our children? More than we wish to believe! While it has been argued that rigid class structures have eroded in favor of greater social equality, The Son Also Rises proves that movement on the social ladder has changed little over eight centuries. Using a novel technique -- tracking family names over generations to measure social mobility across countries and periods -- renowned economic historian Gregory Clark reveals that mobility

rates are lower than conventionally estimated, do not vary across societies, and are resistant to social policies. The good news is that these patterns are driven by strong inheritance of abilities and lineage does not beget unwarranted advantage. The bad news is that much of our fate is predictable from lineage. Clark argues that since a greater part of our place in the world is predetermined, we must avoid creating winner-take-all societies."-- Jacket.

**Chasing Kona** Mar 05 2020 Sitting watching TV with a cigarette in one hand, a black coffee in the other and nursing a crushing hangover I switched channels until I found sports. There was some sort of bike race on and I half watched while lighting another cigarette off the butt of my last one for a minute before switching channels again. Just as I hit the button on the remote the commentator mentioned something about the athletes swimming before and running afterwards as well as racing the bike. I thought he said something about the run being a marathon but that couldn't be right. This sparked my interest and I switched back, but he was talking about something else so I waited for him to get around to describing exactly what this race was. I didn't have long to wait as he said they first did a 2.5 mile swim, then 112 miles on the bike all topped off with running a marathon. I was stunned. I didn't think that would be physically possible and as I lit another cigarette I wondered how many days did they

have to do it. I guessed it would have to be three days. Swim the first day, bike the second and run the third but it still sounded like a crazy thing to do. Then he said that they did it all in the one day, one after another without stopping. I was completely incredulous. And hooked. I remained glued to the TV and learned that these bronzed, muscular Greek God looking athletes weren't all professionals either. There was an amateur or "age group" race as well Although I could hardly tell the difference between the pros and amateurs. They all looked unbelievably fit. As I sat there mesmerised I swore to myself that I'd race there someday. I'd stop smoking and drinking and somehow do "The Ironman" At the time I had no idea what that meant or how I would do it and after a while as things have a way of doing I got busy with life and I forgot all about The Ironman and Hawaii. I forgot until several years later when I had actually given up smoking and had taken up triathlon. It had taken me two years and sixteen races of swimming breast stroke before I learned to swim properly. I never once looked even remotely like Kona material but I wanted to have a go at doing an Ironman. It took another three years before I plucked up the courage and lined up for my first one in Nice, France. I finished in the last quarter of the field, hours behind the athletes racing for those precious Kona slots. Nothing I had done up to then had given any indication that I should have had a reason to believe I had a chance at qualifying, but three years later when I asked

Aisling, my wife if she thought it was possible she immediately said yes and then she added let's do it. Aisling's belief in me started us on a journey that led to me treading water on the most iconic start line in triathlon, waiting for the cannon to fire at the start of the Ironman World Championships in Hawaii. This is how we overcame all of the odds and discovered what it would take to get to the Ironman World Championships. This is our Kona story.

*Sweet Tea and Sympathy* Aug 29 2019 From beloved author Molly Harper comes the first novel in the contemporary romance series, *Southern Eclectic*, about a big-city party planner who finds true love in a small Georgia town. Nestled on the shore of Lake Sackett,

Georgia is the McCready Family Funeral Home and Bait Shop. (What, you have a problem with one-stop shopping?) Two McCready brothers started two separate businesses in the same building back in 1928, and now it's become one big family affair. And true to form in small Southern towns, family business becomes everybody's business. Margot Cary has spent her life immersed in everything Lake Sackett is not. As an elite event planner, Margot's rubbed elbows with the cream of Chicago society, and made elegance and glamour her business. She's riding high until one event goes tragically, spectacularly wrong. Now she's blackballed by the gala set and in dire need of a fresh start—and apparently the McCreadys are in need of an event planner with a tarnished reputation. As Margot finds her footing in a town where everybody knows not only your name, but what you had for dinner last Saturday night and what you'll wear to church on Sunday morning, she grudgingly has to admit that there are some things Lake Sackett does better than Chicago—including the dating prospects. Elementary school principal Kyle Archer is a fellow fish-out-of-water who volunteers to show Margot the picture-postcard side of Southern living. The two of them hit it off, but not everybody is happy to see an outsider snapping up one of the town's most eligible gentleman. Will Margot reel in her handsome fish, or will she have to release her latest catch?

Breathtaking photographs cover chaotic live performances, intimate portrait sessions and snatched moments backstage and on tour over a ten-year period. Cummins provides insightful commentary on the art of photography and what it was like to work and travel with Morrissey. The book also includes portraits of fans around the world with Morrissey-inspired tattoos, featuring an essay by literary academic Dr Gail Crowther exploring how this art form is used to display devotion to a unique musician.

*The History of the Future in Colonial Mexico* Jun 07 2020 A prominent scholar of Mexican and Latin American history challenges the

field's focus on historical memory to examine colonial-era conceptions of the future Going against the grain of most existing scholarship, Matthew D. O'Hara explores the archives of colonial Mexico to uncover a history of "futuremaking." While historians and historical anthropologists of Latin America have long focused on historical memory, O'Hara--a Rockefeller Foundation grantee and the award-winning author of *A Flock Divided: Race, Religion, and Politics in Mexico*--rejects this approach and its assumptions about time experience. Ranging widely across economic, political, and cultural practices, O'Hara reveals how colonial subjects used the resources of tradition and Catholicism to craft new futures. An intriguing, innovative work, this volume will be widely read by scholars of Latin American history, religious studies, and historical methodology.

**The Cambridge Economic History of Modern Britain** Dec 14 2020 A new edition of the leading textbook on the economic history of Britain since industrialization. Combining the expertise of more than thirty leading historians and economists, Volume 1 tracks Britain's economic history in the period ranging from 1700 to 1870 from industrialisation to global trade and empire. Each chapter provides a clear guide to the major controversies in the field and students are shown how to connect historical evidence with economic theory and apply quantitative methods. New approaches are proposed to classic issues such as the

causes and consequences of industrialisation, the role of institutions and the state, and the transition from an organic to an inorganic economy, as well as introducing new issues such as globalisation, convergence and divergence, the role of science, technology and invention, and the growth of consumerism. Throughout the volume, British experience is set within an international context and its performance benchmarked against its global competitors.

**From Sarah to Sydney** Oct 12 2020 The untold life story of All-of-a-Kind Family author Sydney Taylor, highlighting her dramatic influence on American children's literature This is the first and only biography of Sydney Taylor (1904-1978), author of the award-winning All-of-a-Kind Family series of books, the first juvenile novels published by a mainstream publisher to feature Jewish children characters. The family--based on Taylor's own as a child--includes five sisters, each two years apart, dressed alike by their fastidious immigrant mother so they all look the same: all-of-a-kind. The four other sisters' names were the same in the books as in their real lives; only the real-life Sarah changed hers to the boyish Sydney while she was in high school. Cummins elucidates the deep connections between the progressive

Taylor's books and American Jewish experiences, arguing that Taylor was deeply influential in the development of national Jewish identity. This biography conveys the vital importance of children's books in the transmission of Jewish culture and the preservation of ethnic heritage.

sueños. On this side too, there are dreams. Lydia Quixano Pérez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? *American Dirt* will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a *Grapes of Wrath* for our

times" and "a new American classic," Jeanine Cummins's *American Dirt* is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.
