[Forging a Region](#) Feb 01 2020 Gujarat lies at the confluence of communities, commerce, and cultures. As the modern Indian state of Gujarat marks its fiftieth year in 2010, this book charts its coalescence into a distinct political and linguistic unit roughly five hundred years ago. From the twelfth to the fifteenth centuries, Gujarat's cosmopolitan coastline and productive hinterland were held together in a contested unity which nurtured the political integration of the region's pastoralists, peasants, soldiers and artisans, and the evolution of the Gujarati language. Forging a

Region explores the creation of Gujarat's unified identity, culminating under a lineage of sultans who united eastern Gujarat and Saurashtra by military action and economic pragmatism in the fifteenth century. Delineating the evolution of the Gujarati political order alongside networks of trade and religion, Samira Sheikh examines how Gujarat's renowned entrepreneurial ethos and dominant discourses on pacifism, vegetarianism, and austerity coexisted, then as now, with a martial pastoralist order. She argues that the religious diversity of medieval Gujarat facilitated economic and political cooperation leading to its cosmopolitan ethos. Sifting through Persian, medieval Gujarati, and Sanskrit sources, Sheikh addresses the long-term history of communities and politics in Gujarat to provide an understanding of the past and present of the region.

The Delhi Sultanate Feb 12 2021 The Delhi Sultanate was the first Islamic state to be established in India. In a broad-ranging, accessible narrative, Peter Jackson traces the history of the Sultanate from its foundation in 1210 to its demise in 1400 at the sack of Delhi by the Central Asian conqueror, Tamerlane. During the thirteenth and fourteenth centuries, the Sultanate was the principal bastion of Islam in the subcontinent. While the book focuses on military and political affairs, tracing the Sultanate's resistance to formidable Mongol invasions from the north-west and the administrative developments that underpinned these exploits, it also explores the Sultans' relations with their non-Muslim subjects. As a comprehensive treatment of the period, the book will make a significant contribution to the literature on medieval Indo-Muslim history. Students of Islamic and Indian history, and those with a general interest in the region, will find it a valuable resource.

The Early Modern in South Asia Mar 16 2021 Did modernity arrive in South Asia with British colonialism? Or was South Asia already modern by then? What might have that modernity looked like? The Early Modern in South Asia engages with these questions. It brings together ten chapters, which collectively trace the contours of South Asia's early modernity between the sixteenth and eighteenth centuries. They do this by examining the

nature of historical change in various domains, including philosophy, warfare, law, environment, politics, violence, religion, and society. The chapters argue that in all these fields, there were noticeable developments during this period, marking a shift from the medieval to the early modern. The introductory chapter contextualizes this by analysing the politics of periodization in history-writing across the world. It discusses the meanings of the relatively new concept of early modernity and the implications of its use for how we understand historical change and continuity in South Asia.

The New Cambridge History of Islam: Volume 3, The Eastern Islamic World, Eleventh to Eighteenth Centuries Dec 25 2021

This volume traces the second great expansion of the Islamic world eastwards from the eleventh century to the eighteenth. As the faith crossed cultural boundaries, the trader and the mystic became as important as the soldier and the administrator.

Distinctive Islamic idioms began to emerge from other great linguistic traditions apart from Arabic, especially in Turkish, Persian, Urdu, Swahili, Malay and Chinese. The Islamic world transformed and absorbed new influences. As the essays in this collection demonstrate, three major features distinguish the time and place from both earlier and modern experiences of Islam.

Firstly, the steppe tribal peoples of central Asia had a decisive impact on the Islamic lands. Secondly, Islam expanded along the trade routes of the Indian Ocean and the South China Sea.

Thirdly, Islam interacted with Asian spirituality, including Hinduism, Sikhism, Buddhism, Taoism and Shamanism. It was during this period that Islam became a truly world religion.

Warfare in Pre-British India - 1500BCE to 1740CE May 30 2022

This book presents a comprehensive survey of warfare in India up to the point where the British began to dominate the sub-continent. It discusses issues such as how far was the relatively bloodless nature of pre-British Indian warfare the product of stateless Indian society? How far did technology determine the

dynamics of warfare in India? Did warfare in this period have a particular Indian nature and was it ritualistic? The book considers land warfare including sieges, naval warfare, the impact of horses, elephants and gunpowder, and the differences made by the arrival of Muslim rulers and by the influx of other foreign influences and techniques. The book concludes by arguing that the presence of standing professional armies supported by centralised bureaucratic states have been underemphasised in the history of India.

The Age of Wrath Nov 11 2020 'Wonderfully well researched . . . engrossing, enlightening' The Hindu The Delhi Sultanate period (1206-1526) is commonly portrayed as an age of chaos and violence-of plundering kings, turbulent dynasties, and the aggressive imposition of Islam on India. But it was also the era that saw the creation of a pan-Indian empire, on the foundations of which the Mughals and the British later built their own Indian empires. The encounter between Islam and Hinduism also transformed, among other things, India's architecture, literature, music and food. Abraham Eraly brings this fascinating period vividly alive, combining erudition with powerful storytelling, and analysis with anecdote.

The New Cambridge History of India Jul 08 2020 The Vijayanagara rajas ruled a substantial part of the southern peninsula of India for over three hundred years, beginning in the mid-fourteenth century. During this epoch the region was transformed from its medieval past toward a modern colonial future. Concentrating on the later sixteenth- and seventeenth-century history of Vijayanagara, this book details the pattern of rule established in this important and long-lived Hindu kingdom that was followed by other, often smaller kingdoms of peninsular India until the onset of colonialism. Through an analysis of the politics, society, and economy of Vijayanagara, the author addresses the central question of the extent to which Vijayanagara, as a medieval Hindu kingdom, can be viewed as a prototype of the polities and societies confronted by the British in the late eighteenth century. The book thus presents an understanding and appreciation of one of the great medieval

kingdoms of India as well as a more general assessment of the nature of the state, society, and culture on the eve of European colonial rule.

Islam in the Indian Subcontinent Jan 02 2020

Indian Castles 1206-1526 Jan 26 2022 From the beginning of the 2nd millennium AD northern India began to fall under the sway of a number of Muslim-Turkic rulers who, at the start of the 13th century, founded the series of dynasties known to history as the Delhi Sultanate. For three centuries these sultans expanded their territory, which led to a dramatic rise in the number of fortifications throughout the subcontinent. This period is the defining age of the Indian castle and the combined influence of the Islamic and Hindu architectural tradition lends these fortifications a unique style. This book covers all the major sites of the period including the fabled seven medieval cities on the site of the present-day city of Delhi.

States and Europe, the word "caliphate" has conjured historically romantic and increasingly pernicious associations. Yet the caliphate's significance in Islamic history and Muslim culture remains poorly understood. This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries. Through extensive primary-source research, Mona Hassan explores the rich constellation of interpretations created by religious scholars, historians, musicians, statesmen, poets, and intellectuals. Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate. She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory, revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage. Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture, law, and politics, similar to the losses and repercussions experienced by other religious communities, including the destruction of the Second Temple for Jews and the fall of Rome for Christians. A global history, *Longing for the Lost Caliphate* delves into why the caliphate has been so important to Muslims in vastly different eras and places.

Military Transition in Early Modern Asia, 1400-1750 May 18 2021

A substantial amount of work has been carried out to explore the military systems of Western Europe during the early modern era, but the military trajectories of the Asian states have received relatively little attention. This study provides the first comparative study of the major Asian empires' military systems and explores the extent of the impact of West European military transition on the extra-European world. Kaushik Roy conducts a

comparative analysis of the armies and navies of the large agrarian bureaucratic empires of Asia, focusing on the question of how far the Asian polities were able to integrate gunpowder weapons in their military systems. *Military Transition in Early Modern Asia, 1400-1750* offers important insights into the common patterns in war making across the region, and the impact of firearms and artillery.

Medieval Panjab in Transition Dec 01 2019 This book reconstructs the historical transition in the undivided Panjab during the sixteenth and seventeenth centuries. It shows that the assertion of Mughal and Afghan suzerainty faced sustained resistance from local elements, particularly the autonomous tribes and hill chieftoms. In central plains, Dulla Bhatti mobilized the toilers of his ancestral domain and, leading a relentless fight against the Mughal oppression, became an abiding symbol of resistance in the collective memory. The multicultural legacy of Panjab evolved through diverse strands of spirituality. The jogis, wedded to monastic discipline, supernatural abilities and land grants, gained acceptance through their exertions for social betterment. The Sabiri and Qadiri silsilas channelized mystical urges towards the technique of prime recitation. The popular verses of Shah Husain, Baba Lal and Sultan Bahu proposed a loving relation with God. The legendary lovers, perishing in the struggles against patriarchal forces, promoted a merger of dissent with spirituality. In the city of Lahore, the material pursuits and cultural life were visible in a mosaic of descriptions, including episodes of social tension. The book understands the upliftment of depressed castes as a defining feature of Sikhism. It places egalitarian concern of the Sikh Gurus alongside the anti-caste protests of Namdev, Kabir and Ravidas. Owing to scriptural authority and congregational equality, the members of depressed castes attained a numerical majority in the Sikh warrior bands that shook the foundations of the Mughal state. The work relies on evidence from the Persian chronicles, Mughal newsletters

Sufi writings, Sikh literature and Punjabi folklore. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Hinduism and the Ethics of Warfare in South Asia Aug 28

2019 This book traces the evolution of theories of warfare in India from the dawn of civilization, focusing on the debate between Dharmayuddha (Just War) and Kutayuddha (Unjust War) within Hindu philosophy. This debate centers around four questions: What is war? What justifies it? How should it be waged? And what are its potential repercussions?

Love's Subtle Magic May 06 2020 The encounter between Muslim and Hindu remains one of the defining issues of South Asian society today. It began as early as the 8th century, and the first Muslim kingdom in India, the Sultanate of Delhi, was established at the end of the 12th century. This power eventually reduced to vassalage almost every independent kingdom on the subcontinent. In *Love's Subtle Magic*, a remarkable and highly original book, Aditya Behl uses a little-understood genre of Sufi literature to paint an entirely new picture of the evolution of Indian culture during the earliest period of Muslim domination. These curious romantic tales transmit a profound religious message through the medium of adventurous stories of love. Although composed in the Muslim courts, they are written in a vernacular Indian language and involve Hindu yogis, Hindu princes and princesses, and Hindu gods. Until now, they have defied analysis. Behl shows that the Sufi authors of these charming tales sought to convey an Islamic vision via an Indian idiom. They thus constitute the earliest attempt at the indigenization of Islamic literature in an Indian setting. More important, however, Behl's analysis brilliantly illuminates the cosmopolitan and composite culture of the Sultanate India in

which they were composed. This in turn compels us completely to rethink the standard of the opposition between Indian Hindu and foreign Muslim and recognize that the Indo-Islamic culture of this era was already significantly Indian in many important ways.

History of Civilizations of Central Asia Nov 23 2021 Part One: The Historical, Social and Economic Setting During the eight centuries covered in this volume, the new faith of Islam arose in Arabia and gradually spread eastwards and northwards, eventually affecting much of Central Asia, the southern fringes of Siberia and the eastern regions of China. These were also the centuries in which nomadic and military empires arose in the heart of Asia, impinging on the history of adjacent, well-established civilizations and cultures (China, India, Islamic Western Asia and Christian eastern and central Europe) to an unparalleled extent. Lamaist Buddhism established itself in the Mongolian region and in Tibet and Islam among the Turkish people of Transoxania, southern Siberia and Xinjiang. It was in Eastern Europe, above all in Russia, that the Turco-Mongol Golden Horde was to have a major, enduring influence on the course of the region's history.

The Making of Medieval Panjab Feb 24 2022 This book seeks to reconstruct the past of undivided Panjab during five medieval centuries. It opens with a narrative of the efforts of Turkish warlords to achieve control in the face of tribal resistance, internal dissensions and external invasions. It examines the linkages of the ruling class with Zamindars and Sufis, paving the way for canal irrigation and agrarian expansion, thus strengthening the roots of the state in the region. While focusing on the post-Timur phase, it tries to make sense of the new ways of acquiring political power. This work uncovers the perpetual attempts of Zamindars to achieve local dominance, particularly in the context of declining presence of the state in the countryside. In this ambitious enterprise, they resorted to the support of their clans, adherence to hallowed customs and recurrent use of

violence, all applied through a system of collective and participatory decision-making. The volume traces the growth of Sufi lineages built on training disciples, writing books, composing poetry and claiming miraculous powers. Besides delving into the relations of the Sufis with the state and different sections of the society, it offers an account of the rituals at a prominent shrine. Paying equal attention to the southeastern region, it deals with engagement of the Sabiris, among other exemplars, with the Islamic spirituality. Inclusive in approach and lucid in expression, the work relies on a wide range of evidence from Persian chronicles, Sufi literature and folklore, some of which have been used for the first time. The Sultanate of Delhi (1206-1526) Sep 02 2022 This book provides an integrated view of the Delhi Sultanate government from 1206 to 1526. It is divided into two parts. The first part deals with the political events and the dynastic history of the Sultans and the second part with the administration, different land issues, social life including two major religious movements and other cultural aspects including architecture and sculpture. The growth of the city of Delhi has been shown here perhaps for the first time. Most of the books on Delhi Sultanate mainly narrate the political events. Here other aspects have been included to show the real character of the Sultanate. It may be mentioned that the English officials from the end of the eighteenth Century had termed the medieval period of India as a 'dark age' - a statement that has been accepted by several Indian writers. It is to negate this view that an integrated narrative has been provided here. Muslim Rule in Medieval India Oct 11 2020 The Delhi Sultanate ruled northern India for over three centuries. The era, marked by the desecration of temples and construction of mosques from temple-rubble, is for many South Asians a lightning rod for debates on communalism, religious identity and inter-faith conflict. Using Persian and Arabic manuscripts, epigraphs and inscriptions, Fouzia Farooq Ahmad demystifies key aspects of governance and religion in this complex and controversial period. Why were small sets of foreign invaders and administrators able

to dominate despite the cultural, linguistic and religious divides separating them from the ruled? And to what extent did people comply with the authority of sultans they knew very little about? By focusing for the first time on the relationship between the sultans, the bureaucracy and the ruled Muslim Rule in Medieval India outlines the practical dynamics of medieval Muslim political culture and its reception. This approach shows categorically that sultans did not possess meaningful political authority among the masses, and that their symbols of legitimacy were merely post hoc socio-cultural embellishments. Ahmad's thoroughly researched revisionist account is essential reading for all students and researchers working on the history of South Asia from the medieval period to the present day.

The Cambridge History of Capitalism: Volume 1, The Rise of Capitalism: From Ancient Origins to 1848 Oct 30 2019 The first volume of The Cambridge History of Capitalism provides a comprehensive account of the evolution of capitalism from its earliest beginnings. Starting with its distant origins in ancient Babylon, successive chapters trace progression up to the 'Promised Land' of capitalism in America. Adopting a wide geographical coverage and comparative perspective, the international team of authors discuss the contributions of Greek, Roman, and Asian civilizations to the development of capitalism, as well as the Chinese, Indian and Arab empires. They determine what features of modern capitalism were present at each time and place, and why the various precursors of capitalism did not survive. Looking at the eventual success of medieval Europe and the examples of city-states in northern Italy and the Low Countries, the authors address how British mercantilism led to European imitations and American successes, and ultimately, how capitalism became global.
