Pretty Little Wife Nov 11 2020 Darby Kane thrills with this twisty domestic suspense novel that asks one central question: shouldn't a dead husband stay dead? Lila Ridgefield lives in an idyllic college town, but not everything is what it seems. Lila isn't what she seems. A student vanished months ago. Now, Lila's husband, Aaron, is also missing. At first these cases are treated as horrible coincidences until it's discovered the student is really the third of three unexplained disappearances over the last few years. The police are desperate to find the connection, if there even is one. Little do they know they might be stumbling over only part of the truth.... With the small town in an uproar, everyone is worried about the whereabouts of their beloved high school teacher. Everyone except Lila, his wife. She's definitely confused about her missing husband but only because she was the last person to see his body, and now it's gone.

Movies at Home Aug 09 2020 The relationship of Hollywood and television, initially turbulent, has ultimately been profitable from the first sally in what was expected to be a war of attrition, up through the soliciting of movies by major networks, independent stations, basic cable networks, premium cable channels, pay-per-view systems and even the corner video store. When their initial efforts to acquire ownership interests in television outlets were thwarted, Hollywood's major movie studios determined to withhold from the tube not only their films but also their actors, no doubt in hopes of making the rival medium appear a weak substitute for cinema. With ticket sales shrinking and television set purchases booming, the studios, erasing their last contemptuously drawn line in the sand, grudgingly released their films to television--and made a fortune.

Generation Kill Dec 01 2019 Based on Evan Wright's National Magazine Award-winning story in Rolling Stone, this is the raw, firsthand account of the 2003 Iraq invasion that inspired the HBO® original mini-series. Within hours of 9/11, America's war on terrorism fell to those like the twenty-three Marines of the First Recon Battalion, the first generation dispatched into open-ended combat since Vietnam. They were a new pop-culture breed of American warrior unrecognizable to their forebears—soldiers raised on hip hop, video games and The Real World. Cocky, brave, headstrong, wary and mostly unprepared for the physical, emotional and moral horrors ahead, the "First Suicide Battalion" would spearhead the blitzkrieg on Iraq, and fight against the hardest resistance Saddam had to offer. Hailed as "one of the best books to come out of the Iraq war" (Financial Times), *Generation Kill* is the funny, frightening, and profane firsthand account of these remarkable men, of the personal toll of victory, and of the randomness, brutality and camaraderie of a new American War.

Starship Troopers Dec 13 2020 In a futuristic military adventure a recruit goes through the roughest boot camp in the universe and into battle with the Terran Mobile Infantry in what historians would come to call the First Interstellar War

The Men Who Stare at Goats Sep 09 2020 Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.
