around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of Option B with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. Lean In continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, Lean In is a

revealing, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

In a Dark Wood Dec 26 2021

"In the aftermath of a heartbreaking tragedy, a scholar and writer uses Dante's Divine Comedy to shepherd him through the dark wood of grief and mourning--a rich and emotionally resonant memoir of suffering, hope, love, and the power of literature to inspire and heal the most devastating loss. Where do we turn when we lose everything? Joseph Luzzi found the answer in the opening of The Divine Comedy: "In the middle of our life's journey, I found myself in a dark wood. "When Luzzi's pregnant wife was in a car accident--and died forty-five

minutes after giving birth to their daughter, Isabel--he finds himself a widower and first-time father at the same moment. While he grieves and cares for his infant daughter, miraculously delivered by caesarean before his wife passed, he turns to Dante's Divine Comedy for solace. In a Dark Wood tells the story of how Dante helps the author rebuild his life. He follows the structure of The Divine Comedy, recounting the Inferno of his grief, the Purgatory of healing and raising Isabel on his own, and then Paradise of the rediscovery of love. A Dante scholar, Luzzi has devoted his life to teaching and writing about the poet. But until he turned to the epic poem to learn how to resurrect his life, he didn't realize how much the poet has given back to him. A meditation on the influence of great art and its power to give us strength in our darkest moments, In a Dark Wood opens the door into the mysteries of Dante's epic poem. Beautifully written and

Balcony in the Forest Jan 27 2022 It is the fall of 1939, and Lieutenant Grange and his men are living in a chalet above a concrete bunker deep in the Ardennes forest, charged with defending the French-Belgian border against the Germans in a war that seems unreal, distant, and unlikely. Far more immediate is the earthy life of the forest itself and the deep sensations of childhood it recalls from Grange's memory. Ostensibly readying for war, Grange instead spends his time observing the change in seasons, falling in love with a young free-spirited widow, and contemplating the absurd stasis of his present condition. This novel of long takes, dream states, and little dramatic action culminates abruptly in battle, an event that is as much the real incursion of the German army into France as it is the sudden intrusion of death into the suspended disbelief of life. Richard Howard's skilled translation captures the fairy-tale otherworldliness and existential dread of this unusual, elusive novel (first

published in 1958) by the supreme prose stylist Julien Gracq.

[Madness and Civilization](#) Jun 19 2021 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

Sit-In Dec 14 2020 It was February 1, 1960. They didn't need menus. Their order was simple. A doughnut and coffee, with cream on the side. This picture book is a celebration of the 50th anniversary of the momentous Woolworth's lunch counter sit-in, when four college students staged a peaceful protest that became a defining moment in the struggle for racial equality and the growing civil rights movement. Andrea Davis Pinkney uses poetic, powerful prose to tell the story of these four young men, who followed Dr. Martin Luther King Jr.'s words of peaceful protest and dared to sit at the "whites only" Woolworth's lunch counter. Brian Pinkney embraces a new artistic style, creating expressive paintings filled with emotion that mirror the hope, strength, and determination that fueled the dreams of not only these four young men, but also countless others.

investigation of two impinging jets of water showed that the liquid sheet formed on impingement disintegrates intermittently, forming groups of drops, which appear as waves propagating from the point of impingement. The frequency of wave occurrence was determined and the variation in frequency with jet

velocity, impingement angle, jet diameter, and jet length was measured. The frequency varied between 1000 and 4000 cycles per second for the test conditions used. Photographs of spray pattern are presented.

whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. Months later, a doctor and two nurses were arrested and accused of injecting some of those patients with life-ending drugs. Five Days at Memorial, the culmination of six years of reporting by Pulitzer Prize winner Sheri Fink, unspools the mystery, bringing us inside a hospital fighting for its life and into the most charged questions in health care: which patients should be prioritized, and can health care professionals ever be excused for hastening death? Transforming our understanding of human nature in crisis, Five Days at Memorial exposes the hidden dilemmas of end-of-life care and reveals how ill-prepared we are for large-scale disasters—and how we can do better. coexistence: science vs. religion, faith vs. empirical inquiry. Which is the keeper of truth? Which is the true path to understanding reality? After forty years of study with some of the greatest scientific minds, as well as a lifetime of meditative, spiritual, and philosophic study, the Dalai Lama presents a brilliant analysis of why all avenues of inquiry—scientific as well as spiritual—must be pursued in order to arrive at a complete picture of the truth. Through an examination of Darwinism and karma, quantum mechanics and philosophical insight into the nature of reality, neurobiology and the study of consciousness, the Dalai Lama draws significant parallels between contemplative and scientific examinations of reality. This breathtakingly personal

examination is a tribute to the Dalai Lama’s teachers—both of science and spirituality. The legacy of this book is a vision of the world in which our different approaches to understanding ourselves, our universe, and one another can be brought together in the service of humanity.
