[Shoreham and Wading River Jan 14 2021](#) Shoreham and Wading River is an illustrated tale of two good neighbors vividly told through the magic of historic postcards. Wading River, settled by New Englanders in 1671, is reminiscent of a classic New England town with its steeped Congregational Church, village green, ancient cemetery, horse farms, and colonial homes. Shoreham, settled at the turn of the last century, went high-tech with the arrival of brilliant inventor Nikola Tesla and his famous tower and laboratory and highbrow as an eastern outpost of the Gold Coast. The two communities are linked by geography and shared traditions, such as a railroad line (sadly abandoned in 1938), a beautiful beach for summer fun, summer camps galore, an equestrian tradition, and glorious tennis--an unbroken rivalry since 1924. Postcards are from the Shoreham Village historical archives, the Wading River and Suffolk County Historical Societies, and private collections.

[Treasure River Aug 01 2022](#) The Red River story has remained a best kept secret, largely in part due to President Jefferson's embarrassment over the 1806 Freeman-Custis Expedition's failure at the hands of the Spanish; brought about by the, "Aaron Burr/Wilkinson conspiracy." Every river has a story that can only be told by someone that knows her history and her heart. Red River was always "Treasure River." She just needed Wildwood Dean to tell her story. Allen Rich, North Texas e-News.

Treasure River, by Wildwood Dean, meanders along the Red River of the early 19th century with tales of trappers, whiskey dealers and treasure hunters. Yellow Beard, reared by his Wichita Indian mother, has not given up the dream of finding his treasure-hunting father. Jac Colter seeks to make his fortune, in part as recompense for an act of treachery against his father. Smuggling prohibited whiskey to the trappers proves a risky if profitable proposition. Want to know how to make frontier

whiskey? Here you'll find the recipe, right down to the rattlesnake heads. In this saga the author lovingly chronicles the imperfect individuals who sought their destinies wherever the streams could take them. Lydia Hawke, author of Firetrail and Perfect Disguise It is astounding that a short 200 years ago, it was more profitable to lose your identity than to steal some one else's; that, the best way to travel from New Orleans to St. Louis was via a steam-driven, wood-eating river boat! In the early 1800's the number one cash crop of the United States was the skin of a beaver. In all probability the second largest cash crop was whisky, until Congress passed a bill in 1832 excluding spirituous liquors from the Indian country. Read and listen: Turmoil, anguish, struggle, faith, patience, harmony and romance make up the emotional maze found in Treasure River! They have been hidden underneath the quite waters of Red River. Listen.to Treasure River!

*Pink* Jul 08 2020 Gus Van Sant goes from auteur to author in an brilliant, inventive, and endlessly entertaining first novel that reads like a Warholian mix of Kurt Vonnegut and Tom Robbins. In the town of Sasquatch, Oregon, Spunky Davis, middle-aged maker of infomercials, is trying to find his next assignment, finish the screenplay that he hopes will bring him Hollywood glory, and deal with the death of his friend and favorite infomercial presenter, teen idol Felix Arroyo. Enter two young aspiring filmmakers, Jack and Matt, whom Spunky finds strangely familiar--especially as Jack bears an uncanny resemblance to the late Felix. But Jack and Matt are not what they appear to be; they are messengers from a dimension beyond time known as Pink, and they invite Spunky to join them on their voyage of transcendence and recovery. Using a delirious array of voices signified by different typefaces, a flip cartoon that animates the novel's action, footnotes and line drawings, Gus Van Sant turns the novel into an explosively visual experience, a captivating combination of texture and text. As original and involving as any of Van Sant's films, *Pink* is both a hip, comic deconstruction of our image-obsessed culture and a genuinely tender story on the classic themes of love, time, and loss.

**The Wind in the Willows** Jul 28 2019 The Mole had been working very hard all the morning, spring-cleaning his little home. First with brooms, then with dusters; then on ladders and steps and chairs, with a brush and a pail of whitewash; till he had dust in his throat and eyes, and splashes of whitewash all over his black fur, and an aching back and weary arms. Spring was moving in the air above and in the earth below and around him, penetrating even his dark and lowly little house with its spirit of divine discontent and longing. It was small wonder, then, that he suddenly flung down his brush on the floor, said 'Bother!' and 'Oblow!' and also 'Hang spring-cleaning!' and bolted out of the house without even waiting to put on his coat. Something up above was calling him imperiously, and he made for the steep little tunnel which answered in his case to the gravelled carriage-drive owned by animals whose residences are nearer to the sun and air. So he scraped and scratched and scabbled and scrooged and then he scrooged again and scabbled and scratched and scraped, working busily with his little paws and muttering to himself, 'Up we go! Up we go!' till at last, pop! his snout came out into the sunlight, and he found himself rolling in the warm grass of a great meadow.

**Seasonal Workamping for a Living** Nov 11 2020 "It is very informative and will be a valuable addition to anyone's library of workamping information." - Edith Cagle (Full-time RVer and Workamper)

Are you dreaming of hitting the open road in an RV and traveling full-time but haven't quite figured out how you are going to fund your travels? It is absolutely possible! There are currently thousands of RVers exploring the country while making a living by working seasonal jobs. This group of people calls themselves workampers, and Natalie and Levi are among them. For almost 6 years, they have lived and worked in 11 states and funded those travels by working 20 jobs. In this book, they not only share the facts of how to look for and land a workamping job, but they talk about their personal experiences and inside knowledge of workamping. They detail how they went from living in a house with regular jobs to landing their first working job and how they have continued to travel and land job after job. Never in their wildest imaginations did they think that they would be behind the production lines of an Amazon warehouse, arranging holiday lights on the longest pedestrian suspension bridge in Gatlinburg, operating a piling machine in the wee hours of the morning while sugar beets shoot out into a 25-foot pile, displaying hundreds of pumpkins and Christmas trees for purchase, or serving one sample of wine after another to hundreds of bikers during a Sturgis Rally in South Dakota. They leave every new workamping experience with a broader skill set and a newfound appreciation for workers in these contrasting fields. What's in the Book: This book has four sections. The first section is their story, how they became full-time RVers and eventual seasonal workampers. The second section details jobs they have worked each season. The third part focuses on finding, applying for, and landing your first and next workamping jobs. Finally, section four answers questions and concerns regarding arriving at the job site, how workamping affects taxes, budgeting aspects, and lessons they have learned as seasonal workampers. At the end is a glossary of links so you can easily start searching for your first workamping job. Regardless if you are... new to seasonal workamping and need the resources and information to get your first workamping job or already a seasonal workamper and are looking for some additional resources and tips for finding your next job ...Levi and Natalie share their story so they might just inspire you to go out on the open road and start your own workamping adventures!

**Rivers** Oct 11 2020 Throughout British history rivers have been of profound economic, social and cultural importance - yet as we see with increasing frequency they have the potential to wreak great destruction. This book describes the natural and not-so-natural changes that have affected British rivers since the last ice age and looks at the many plants and animals that live along, above and within them. Detailed case studies of the Meon, Dee and Endrick illustrate the incredibly varied nature of our river ecosystems, and the natural and human factors that make each one different. Written by two widely respected river ecologists, the book looks not only at rivers as they were and are but also at how they can be managed and cared for. Full of interesting facts and stunning images, Rivers is essential reading for anyone professionally involved in rivers and for the naturalist, conservationist and layman alike. It is the one

**Jedediah Smith and the Opening of the West** Dec 01 2019 In 1822, before Jedediah Smith entered the West, it was largely an unknown land, "a wilderness," he wrote, "of two thousand miles diameter." During his nine years as a trapper for Ashley and Henry and later for the Rocky Mountain Fur Company, "the mild and Christian young man" blazed the trail westward through South Pass; he was the first to go from the Missouri overland to California, the first to cross the length of Utah and the width of Nevada, first to travel by land up through California and Oregon, first to cross the Sierra Nevada. Before his death on the Santa Fe Trail at the hands of the Comanches, Jed Smith and his partners had drawn the map of the west on a beaver skin.
