How to Read Like a Writer Jul 28 2019 When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

Write! Mar 04 2020 This book consists of cooperative learning lesson designs. It can be used either to replace or supplement language arts textbook-based writing instruction and to lead teachers and writers toward writing as a process.

Preventing Reading Difficulties in Young Children Nov 23 2021 While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, Preventing Reading Difficulties in Young Children examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.

Writing for Pleasure Apr 16 2021 This book explores what writing for pleasure means, and how it can be realised as a much-needed pedagogy whose aim is to develop children, young people, and their teachers as extraordinary and life-long writers. The approach described is grounded in what global research has long been telling us are the most effective ways of teaching writing and contains a description of the authors' own research project into what exceptional teachers of writing do that makes the difference. The authors describe ways of building communities of committed and successful writers who write with purpose, power, and pleasure, and they underline the importance of the affective aspects of writing teaching, including promoting in apprentice writers a sense of self-efficacy,

agency, self-regulation, volition, motivation, and writer-identity. They define and discuss 14 research-informed principles which constitute a Writing for Pleasure pedagogy and show how they are applied by teachers in classroom practice. Case studies of outstanding teachers across the globe further illustrate what world-class writing teaching is. Reading-to-Write Jun 30 2022 The Social and Cognitive Studies in Writing and Literacy Series, is devoted to books that bridge research, theory, and practice, exploring social and cognitive processes in writing and expanding our knowledge of literacy as an active constructive process--as students move from high school to college. This descriptive study of reading-to-write examines a critical point in every college student's academic performance: when he or she is faced with the task of reading a source, integrating personal ideas, and creating an individual text with a self-defined purpose. Offering an unusually comprehensive view of this process, the authors chart a group of freshmen as they study and write in their dormitories, recording their "think-aloud" strategies for reading, writing, and revising, their interpretation of the task, and their broader social, cultural, and contextual understanding of college writing. Flower, Stein, and colleagues convincingly conclude that the legacy of schooling in general makes the transition to college difficult and, more important, that the assumptions students hold and the strategies they use in undertaking this task play a significant role in their academic performance. Embracing a broad range of perspectives from rhetoric, composition, literacy research, literary and cultural theory, and cognitive psychology, this rigorous analysis treats reading-to-write as both a cognitive and social process. It will interest researchers and theoreticians in rhetoric and writing, teachers working with students in transition from high school to college, and educators involved in the links between cognition and the social process.

Improving Adult Literacy Instruction Jun 18 2021 A high level of literacy in both print and digital media is required for negotiating most aspects of 21st-century life, including supporting a family, education, health, civic participation, and competitiveness in the global economy. Yet, more than 90 million U.S. adults lack adequate literacy. Furthermore, only 38 percent of U.S. 12th graders are at or above proficient in reading. Improving Adult Literacy Instruction synthesizes the research on literacy and learning to improve literacy instruction in the United States and to recommend a more systemic approach to research, practice, and policy. The book focuses on individuals ages 16 and older who are not in K-12 education. It identifies factors that affect literacy development in adolescence and adulthood in general, and examines their implications for strengthening literacy instruction for this population. It also discusses technologies for learning that can assist with multiple aspects of teaching, assessment, and accommodations for learning. There is inadequate knowledge about effective instructional practices and a need for better assessment and ongoing monitoring of adult students' proficiencies, weaknesses, instructional environments, and progress, which might guide instructional planning. Improving Adult Literacy Instruction recommends a program of research and innovation to validate, identify the boundaries of, and extend current knowledge to improve instruction for adults and adolescents outside school. The book is a valuable resource for curriculum developers, federal agencies such as the Department of Education, administrators, educators, and funding agencies.

Reading Like a Writer Dec 01 2019 DIV In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, Reading Like a Writer will inspire readers to return to literature with a fresh eye and an eager heart -- to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading. /div

Reading, Writing, and Thinking Dec 13 2020 In a world gone mad with standardized curricula and the degradation of the profession of teaching, P. L. Thomas and Joe Kincheloe attempt to bring sanity back to the discussion of the teaching of some of the basic features of the educational process. Reforming Reading, Writing, and Mathematics Aug 28 2019 In this book S.G. Grant reports his study of how four Michigan elementary school teachers manage a range of reforms (such as new tests, textbooks, and curriculum frameworks) in three different school subjects (reading, writing, and mathematics). Two significant findings emerge from his comparison of these responses: teachers' responses vary across classrooms (even when they teach in the same school building) and also across the reforms (a teacher might embrace reforms in one subject area, but ignore proposed changes in another). This study of teachers' responses to reading, writing, and mathematics reform and the prospects for systemic reform is part of a growing trend to look at the intersection of curriculum policy and teachers' classroom practice. It is unique in the way the author looks at teachers' responses to multiple subject matter reforms; uses those responses as part of an analysis of the recent move toward systemic reform; and employs empirical findings as a means of examining the current movement toward systemic reform. Reforming Reading, Writing, and Mathematics is important reading for researchers, practitioners, and graduate students of educational policy, teaching and learning in reading, writing, and mathematics, and elementary education, and for policy analysts in universities, foundations, and government.
